THE FUNDS

The Fund is a series of Northern Lights Fund Trust IV, a Delaware statutory trust organized on June 2, 2015 (the “Trust”). The Fund is a “diversified company” as defined by the Investment Company Act of 1940, as amended, which means at least 75% of the value of its total assets is represented by cash and cash items (including receivables), government securities, securities of other investment companies, and other securities for the purposes of this calculation limited in respect of any one issuer to an amount not greater in value than 5% of the value of the total assets of such management company and to not more than 10% of the outstanding voting securities of such issuer. The Trust is registered as an open-end management investment company. The Trust is governed by its Board of Trustees (the “Board”).

The Fund may issue an unlimited number of shares of beneficial interest (“Shares”). All Shares have equal rights and privileges. Each Share is entitled to one vote on all matters as to which Shares are entitled to vote. In addition, each Share of the Fund is entitled to participate equally with other Shares of the Fund (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights.

The Fund is managed by Tuttle Capital Management, LLC (the “Adviser”). The Board may start other series and offer shares of a new fund under the Trust at any time.

The Fund issues and redeems Shares at net asset value (“NAV”) only in aggregations of 10,000 Shares (each a “Creation Unit”). The Fund issues and redeems Creation Units principally in exchange for a basket of securities (the “Deposit Securities”), together with the deposit of a specified cash payment (the “Cash Component”), plus a transaction fee (unless waived). Shares are listed, subject to notice of issuance, on the NASDAQ, Inc. (the “Exchange”). Shares trade on the Exchange at market prices that may be below, at, or above NAV.

Exchange Listing and Trading

Shares are listed for trading, and trade throughout the day, on the Exchange. There can be no assurance that the requirements of the Exchange necessary to maintain the listing of Shares will continue to be met. The Exchange may, but is not required to, remove Shares from listing if, among other things following the initial 12-month period beginning upon the commencement of trading of Shares, there are fewer than 50 beneficial and/or beneficial owners of Shares for 30 or more consecutive trading days or any other event shall occur or condition shall exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will also remove Shares from listing and trading upon termination of a Fund or may delist the Shares in the event the Fund does not comply with the continuous listing standards of the Exchange, as described in the Prospectus.

As in the case of other publicly-traded securities, when you buy or sell Shares through a broker, you may incur a brokerage commission determined by that broker, as well as other charges.

TYPES OF INVESTMENTS

A discussion of the Fund’s investment policies and the risks associated with an investment in the Fund is contained in the Prospectus. The discussion below supplements, and should be read in conjunction with, the Prospectus.

An investment in the Fund should be made with an understanding of the risks inherent in an investment in securities, including the risk that the general condition of the securities market may deteriorate. Securities are susceptible to general securities market fluctuations and to volatile increases and decreases in value as market confidence changes. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic or banking crises.

The existence of a liquid trading market for certain securities may depend on whether dealers will make a market in such securities. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of the Shares will be adversely affected if trading markets for the Fund’s portfolio securities are limited or absent, or if bid/ask spreads are wide. The performance of the Fund may vary due to asset valuation differences: the Fund may fair value certain of the securities it holds. There may also be differences between the Fund’s portfolio as a result of legal restrictions, cost or liquidity constraints. Similarly, liquidity constraints also may delay the Fund’s purchase or sale of securities.

Bonds

A bond is an interest-bearing security issued by a U.S. or non-U.S. company, or U.S. or non-U.S. governmental unit. The issuer of a bond has a contractual obligation to pay interest at a stated rate on specific dates and to repay principal (the bond's face value) periodically or on a specified maturity date. Bonds generally are used by corporations and governments to borrow money from investors.

An issuer may have the right to redeem or "call" a bond before maturity, in which case the Fund may have to reinvest the proceeds at lower market rates. Similarly, the Fund may have to reinvest interest income or payments received when bonds mature, sometimes at lower market rates. Most bonds bear interest income at a "coupon" rate that is fixed for the life of the bond. The value of a fixed-rate bond usually rises when market interest rates fall, and falls when market interest rates rise. Accordingly, a fixed-rate bond's yield (income as a percent of the bond's current value) may differ from its coupon rate as its value rises or falls. When an investor purchases a fixed-rate bond at a price that is greater than its face value, the investor is purchasing the bond at a premium. Conversely, when an investor purchases a fixed-rate bond at a price that is less than its face value, the investor is purchasing the bond at a discount. Fixed-rate bonds that are purchased at a discount pay less current income than securities with comparable yields that are purchased at face value, with the result that prices for such fixed-rate securities can be more volatile than prices for such securities that are purchased at face value. Other types of bonds bear interest at an interest rate that is adjusted periodically. Interest rates on "floating rate" or "variable rate" bonds may be higher or lower than current market rates for fixed-rate bonds of comparable quality with similar final maturities.

Because of their adjustable interest rates, the value of "floating rate" or "variable rate" bonds fluctuates much less in response to market interest rate movements than the value of fixed-rate bonds, but their value may decline if their interest rates do not rise as much, or as quickly, as interest rates in general. The Fund may treat some of these bonds as having a shorter maturity for purposes of calculating the weighted average maturity of its investment portfolio. Generally, prices of higher quality issues tend to fluctuate less with changes in market interest rates than prices of lower quality issues and prices of longer maturity issues tend to fluctuate more than prices of shorter maturity issues. Bonds may be senior or subordinated obligations. Senior obligations generally have the first claim on a corporation's earnings and assets and, in the event of liquidation, are paid before subordinated obligations. Bonds may be unsecured (backed only by the issuer's general creditworthiness) or secured (backed by specified collateral).

Corporate Bonds

The investment return of corporate bonds reflects interest earned on the security and changes in the market value of the security. The market value of a corporate bond may be affected by changes in the market rate of interest, the credit rating of the corporation, the corporation's performance and perceptions of the corporation in the marketplace. There is a risk that the issuers of the securities may not be able to meet their obligations on interest or principal payments at the time called for by an instrument.

Company-Specific Risk

The possibility that a particular stock may lose value due to factors specific to the company itself, including deterioration of its fundamental characteristics, an occurrence of adverse events at the company, or a downturn in its business prospects.

Currency Transactions.

A currency forward contract is an over-the-counter ("OTC") obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days greater than two days from the date on which the contract is agreed upon by the parties, at a price set at the time of the contract. A non-deliverable currency forward is an OTC currency forward settled in a specified currency, on a specified date, based on the difference between the agreed-upon exchange rate and the market exchange rate. A currency futures contract is a contract that trades on an organized futures exchange involving an obligation to deliver or acquire a specified amount of a specific currency, at a specified price and at a specified future time. Currency futures contracts may be settled on a net cash payment basis rather than by the sale and delivery of the underlying currency. To the extent required by law, liquid assets committed to futures contracts will be maintained. The Fund may engage in currency transactions for the purpose of hedging against declines in the value of the Fund's assets that are denominated in a non-U.S. currency. The Fund may enter into non-U.S. currency transactions to facilitate local securities settlements or to protect against currency exposure in connection with its distributions to shareholders or for the purpose of hedging, but may not enter into such contracts for speculative purposes. The rapid fluctuations in the market prices of currency contracts generally make such investments volatile. Volatility is caused by, among other things: changes in supply and demand relationships; trade, fiscal, monetary and exchange control programs; domestic and foreign political and economic events and policies; and changes in interest rates. The Fund's trading methods may not take into account all of these factors. In addition, governments from time to time intervene, directly and by regulation, in certain markets, often with the intent to

influence prices directly. The effects of governmental intervention may be particularly significant at certain times in the currency markets, and this intervention may cause these markets to move rapidly. Foreign exchange transactions involve a significant degree of risk and the markets in which foreign exchange transactions are effected may be highly volatile, highly specialized and highly technical. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time, often within minutes. Foreign exchange trading risks include, but are not limited to, exchange rate risk, counterparty risk, maturity gap, interest rate risk, and potential interference by foreign governments through regulation of local exchange markets, foreign investment or particular transactions in non-U.S. currency. If the Adviser utilizes foreign exchange transactions at an inappropriate time or judges market conditions, trends or correlations incorrectly, foreign exchange transactions may not serve their intended purpose of improving the Fund's performance and may lower the Fund's return. The Fund could experience losses if the value of its currency positions were poorly correlated with its other investments or if it could not close out its positions because of an illiquid market or otherwise. In addition, the Fund could incur transaction costs, including trading commissions, in connection with certain non-U.S. currency transactions.

Depository Receipts

Depository Receipts are generally subject to the same sort of risks as direct investments in a foreign country, such as, currency risk, political and economic risk, and market risk, because their values depend on the performance of a foreign security denominated in its home currency.

The Fund may invest in foreign securities which means it may invest in:

- ADRs - receipts issued by an American bank or trust company evidencing ownership of underlying securities issued by a foreign issuer. They are designed for use in U.S. securities markets.
- EDRs and GDRs - receipts typically issued by a foreign financial institution to evidence an arrangement similar to that of ADRs.

Depository Receipts may be issued by sponsored or unsponsored programs. In sponsored programs, an issuer has made arrangements to have its securities traded in the form of Depository Receipts. In unsponsored programs, the issuer may not be directly involved in the creation of the program. Although regulatory requirements with respect to sponsored and unsponsored programs are generally similar, in some cases it may be easier to obtain financial information from an issuer that has participated in the creation of a sponsored program. Accordingly, there may be less information available regarding issuers of securities of underlying unsponsored programs, and there may not be a correlation between the availability of such information and the market value of the Depository Receipts.

Equity Securities

Equity securities include common stocks, preferred stocks and securities convertible into common stocks, such as convertible securities, warrants, rights and options. The value of equity securities varies in response to many factors, including the activities and financial condition of individual companies, the business market in which individual companies compete and general market and economic conditions. Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations can be significant.

Common Stock

Common stock represents an equity (ownership) interest in a company, and usually possesses voting rights and earns dividends. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company's stock price.

Convertible Securities

Convertible securities include fixed income securities that may be exchanged or converted into a predetermined number of shares of the issuer's underlying common stock at the option of the holder during a specified period. Convertible securities may take the form of convertible preferred stock, convertible bonds or debentures, units consisting of "usable" bonds and warrants or a combination of the features of several of these securities. Convertible securities are senior to common stocks in an issuer's capital structure, but are usually subordinated to similar non-convertible securities. While providing a fixed-income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar nonconvertible security), a convertible security also gives an investor the opportunity, through its conversion feature,

to participate in the capital appreciation of the issuing company depending upon a market price advance in the convertible security's underlying common stock.

Preferred Stock

Preferred stock is a class of stock having a preference over common stock as to the payment of dividends and the recovery of investment should a company be liquidated, although preferred stock is usually junior to the debt securities of the issuer. Preferred stock typically does not possess voting rights and its market value may change based on changes in interest rates.

A fundamental risk of investing in common and preferred stock is the risk that the value of the stock might decrease. Stock values fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. Historically, common stocks have provided greater long-term returns and have entailed greater short-term risks than preferred stocks, fixed-income securities and money market investments. The market value of all securities, including common and preferred stocks, is based upon the market's perception of value and not necessarily the book value of an issuer or other objective measures of a company's worth.

Warrants

Warrants are options to purchase common stock at a specific price (usually at a premium above the market value of the optioned common stock at issuance) valid for a specific period of time. Warrants may have a life ranging from less than one year to twenty years, or they may be perpetual. However, most warrants have expiration dates after which they are worthless. In addition, a warrant is worthless if the market price of the common stock does not exceed the warrant's exercise price during the life of the warrant. Warrants have no voting rights, pay no dividends, and have no rights with respect to the assets of the corporation issuing them. The percentage increase or decrease in the market price of the warrant may tend to be greater than the percentage increase or decrease in the market price of the optioned common stock.

Foreign Securities

Investing in foreign securities carries political and economic risks distinct from those associated with investing in the United States. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitation on or delays in the removal of funds or other assets of the Fund, political or financial instability or diplomatic and other developments that could affect such investments. Foreign investments may be affected by actions of foreign governments adverse to the interests of U.S. investors, including the possibility of expropriation or nationalization of assets, confiscatory taxation, restrictions on U.S. investment or on the ability to repatriate assets or to convert currency into U.S. Dollars. There may be a greater possibility of default by foreign governments or foreign-government sponsored enterprises. Investments in foreign countries also involve a risk of local political, economic or social instability, military action or unrest or adverse diplomatic developments.

Emerging Markets Securities

Investing in emerging market securities imposes risks different from, or greater than, risks of investing in foreign developed countries. These risks include: smaller market capitalization of securities markets, which may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; possible repatriation of investment income and capital. In addition, foreign investors may be required to register the proceeds of sales; future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization, or creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

Additional risks of emerging markets securities may include: greater social, economic and political uncertainty and instability; more substantial governmental involvement in the economy; less governmental supervision and regulation; unavailability of currency hedging techniques; companies that are newly organized and small; differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers; and less developed legal systems. In addition, emerging securities markets may have different clearance and settlement procedures, which may be unable to keep pace with the volume of securities transactions or otherwise make it difficult to engage in such transactions. Settlement problems may cause the Fund to miss attractive investment opportunities, hold a portion of its assets in cash pending investment, or be delayed in disposing of a portfolio security. Such a delay could result in possible liability to a purchaser of the security.

Asia-Pacific Countries

In addition to the risks of foreign investing and the risks of investing in emerging markets, the developing market Asia-Pacific countries in which the Fund may invest are subject to certain additional or specific risks. In the Asia-Pacific markets, there is a high concentration of market capitalization and trading volume in a small number of issuers representing a limited number of industries, as well as a high concentration of investors and financial intermediaries. Many of these markets also may be affected by developments with respect to more established markets in the region, such as Japan and Hong Kong. Brokers in developing market Asia-Pacific countries typically are fewer in number and less well capitalized than brokers in the United States.

Many of the developing market Asia-Pacific countries may be subject to a greater degree of economic, political and social instability than is the case in the United States and Western European countries. Such instability may result from, among other things: (i) authoritarian governments or military involvement in political and economic decision-making, including changes in government through extra-constitutional means; (ii) popular unrest associated with demands for improved political, economic and social conditions; (iii) internal insurgencies; (iv) hostile relations with neighboring countries; and/or (v) ethnic, religious and racial disaffection. In addition, the governments of many of such countries, such as Indonesia, have a heavy role in regulating and supervising the economy.

European Countries

The economies and markets of European countries are often closely connected and interdependent, and events in one European country can have an adverse impact on other European countries. Certain funds may invest in securities of issuers that are domiciled in, or have significant operations in, member countries of the Economic and Monetary Union of the European Union (the "EU"), which requires member countries to comply with restrictions on inflation rates, deficits, interest rates, debt levels and fiscal and monetary controls. Decreasing imports or exports, changes in governmental or EU regulations on trade, changes in the exchange rate of the euro (the common currency of certain EU countries), the default or threat of default by an EU member country on its sovereign debt, and/or an economic recession in an EU member country may have a significant adverse effect on the economies of EU member countries and their trading partners, including some or all of the emerging markets countries. Although certain European countries do not use the euro, many of these countries are obliged to meet the criteria for joining the euro zone. Consequently, these countries must comply with many of the restrictions noted above. The European financial markets have experienced volatility and adverse trends in recent years due to concerns about economic downturns, rising government debt levels and the possible default of government debt in several European countries. Further defaults or restructurings by governments and other entities of their debt could have additional adverse effects on economies, financial markets and asset valuations around the world. In addition, one or more countries may abandon the euro and/or withdraw from the EU, such as, with respect to the latter, the United Kingdom (the "UK"), which is a significant market in the global economy. The impact of these actions, especially if they occur in a disorderly fashion, is not clear but could be significant and far-reaching and could adversely impact the value of investments in the region.

Supranational Entities

The Fund may invest in obligations of supranational entities. A supranational entity is an entity designated or supported by national governments to promote economic reconstruction, development or trade amongst nations. Examples of supranational entities include the International Bank for Reconstruction and Development (also known as the World Bank) and the European Investment Bank. Obligations of supranational entities are subject to the risk that the governments on whose support the entity depends for its financial backing or repayment may be unable or unwilling to provide that support. Obligations of a supranational entity that are denominated in foreign currencies will also be subject to the risks associated with investments in foreign currencies.

Illiquid and Restricted Securities

The Fund may invest up to 15% of its net assets in illiquid investments. Illiquid investments include securities subject to contractual or legal restrictions on resale (e.g., because they have not been registered under the Securities Act of 1933, as amended (the "Securities Act")) and securities that are otherwise not readily marketable (e.g., because trading in the security is suspended or because market makers do not exist or will not entertain bids or offers). Securities that have not been registered under the Securities Act are referred to as private placements or restricted securities and are purchased directly from the issuer or in the secondary market. Foreign securities that are freely tradable in their principal markets are not considered to be illiquid.

Restricted and other illiquid investments may be subject to the potential for delays on resale and uncertainty in valuation. The Fund might be unable to dispose of illiquid investments promptly or at reasonable prices and might thereby experience difficulty in satisfying redemption requests from shareholders. The Fund might have to register restricted securities in order to dispose of them, resulting in additional expense and delay. Adverse market conditions could impede such a public offering of securities.

A large institutional market exists for certain securities that are not registered under the Securities Act, including foreign securities. The fact that there are contractual or legal restrictions on resale to the general public or to certain institutions may not be indicative of the liquidity of such investments. Rule 144A under the Securities Act allows such a broader institutional trading market for securities otherwise subject to restrictions on resale to the general public. Rule 144A establishes a “safe harbor” from the registration requirements of the Securities Act for resale of certain securities to qualified institutional buyers. Rule 144A has produced enhanced liquidity for many restricted securities, and market liquidity for such securities may continue to expand as a result of this regulation and the consequent existence of the PORTAL system, which is an automated system for the trading, clearance and settlement of unregistered securities of domestic and foreign issuers sponsored by NASDAQ.

Under guidelines adopted by the Board, the Adviser may determine that particular Rule 144A securities, and commercial paper issued in reliance on the private placement exemption from registration afforded by Section 4(a)(2) of the Securities Act, are liquid even though they are not registered. A determination of whether such a security is liquid or not is a question of fact. In making this determination, the Adviser will consider, as it deems appropriate under the circumstances and among other factors: (1) the frequency of trades and quotes for the security; (2) the number of dealers willing to purchase or sell the security; (3) the number of other potential purchasers of the security; (4) dealer undertakings to make a market in the security; (5) the nature of the security (e.g., debt or equity, date of maturity, terms of dividend or interest payments, and other material terms) and the nature of the marketplace trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer); and (6) the rating of the security and the financial condition and prospects of the issuer. In the case of commercial paper, the Adviser will also determine that the paper (1) is not traded flat or in default as to principal and interest, and (2) is rated in one of the two highest rating categories by at least two nationally recognized statistical rating organizations (“NRSROs”) or, if only one NRSRO rates the security, by that NRSRO, or, if the security is unrated, the Adviser determines that it is of equivalent quality.

Rule 144A securities and Section 4(a)(2) commercial paper that have been deemed liquid as described above will continue to be monitored by the Adviser to determine if the security is no longer liquid as the result of changed conditions. Investing in Rule 144A securities or Section 4(a)(2) commercial paper could have the effect of increasing the amount of the Fund’s assets invested in illiquid securities if institutional buyers are unwilling to purchase such securities.

Liquidity Risk Management

Rule 22e-4 under the 1940 Act (the “Liquidity Rule”) requires open-end funds, including ETFs such as the Fund, to establish a liquidity risk management program (the “Liquidity Program”) and enhance disclosures regarding fund liquidity. As required by the Liquidity Rule, the Fund has implemented a Liquidity Program, and the Board, including a majority of the Independent Trustees of the Trust, has appointed an administrator of the Liquidity Program. Under the Liquidity Program, the Fund’s liquidity risk is assessed, managed, and periodically reviewed. The Liquidity Rule defines “liquidity risk” as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of the remaining investors’ interest in the Fund. The liquidity of the Fund’s portfolio investments is determined based on relevant market, trading and investment-specific considerations under the Liquidity Program. There are exclusions from certain portions of the liquidity risk management program requirements for “in-kind” ETFs, as defined in the Liquidity Rule.

Initial Public Offerings (“IPOs”)

An IPO is a company’s first offering of stock to the public. IPO risk is that the market value of IPO shares will fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading, and limited information about the issuer. The purchase of IPO shares may involve high transaction costs. IPO shares are subject to market risk and liquidity risk. In addition, the market for IPO shares can be speculative and/or inactive for extended periods. The limited number of shares available for trading in some IPOs may make it more difficult for the Fund to buy or sell significant amounts of shares without an unfavorable impact on prevailing prices. Investors in IPO shares can be affected by substantial dilution in the value of their shares by sales of additional shares and by concentration of control in existing management and principal shareholders. When the Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs because such investments would have a magnified impact on the Fund. As the Fund’s assets grow, the effect of the Fund’s investments in IPOs on the Fund’s performance probably will decline, which could reduce the fund’s performance. Because of the price volatility of IPO shares, the Fund may choose to hold IPO shares for a very short period. This may increase the turnover of the Fund’s portfolio and lead to increased expenses to the Fund, such as commissions and transaction costs. By selling IPO shares, the Fund may realize taxable gains it will subsequently distribute to shareholders.

Securities of Other Investment Companies

Investments in closed-end investment companies, exchange traded funds (“ETFs”) and mutual funds involve certain additional expenses and certain tax results, which would not be present in a direct investment in such funds. The Fund intends to limit their investments in accordance with applicable law or as permitted by Rule 12d1-4. Among other things, such law would limit these investments so that, as determined immediately after a securities purchase is made by the Fund: (a) not more than 5% of the value of its total assets will be invested in the securities of any one investment company (the “5% Limitation”); (b) not more than 10% of the value of its total assets will be invested in the aggregate in securities of investment companies as a group (the “10% Limitation”); (c) not more than 3% of the outstanding voting stock of any one investment company will be owned by the Fund (the “3% Limitation”); and (d) not more than 10% of the outstanding voting stock of any one closed-end investment company will be owned by the Fund together with all other investment companies that have the same advisor. Under certain sets of conditions, different sets of restrictions may be applicable. As a shareholder of another investment company, the Fund would bear, along with other shareholders, its pro rata portion of that investment company’s expenses, including advisory fees. These expenses would be in addition to the advisory and other expenses that the Fund bears directly in connection with its own operations. Investment companies in which the Fund may invest may also impose a sales or distribution charge in connection with the purchase or redemption of their Shares and other types of commissions or charges. Such charges will be payable by the Fund and, therefore, will be borne directly by Shareholders.

The Fund intends to rely on Section 12(d)(1)(F) and Rule 12d1-4 under the 1940 Act which in conjunction with one another allow registered investment companies (such as the Fund) to exceed the 3%, 5% and 10% Limitation, provided the aggregate sales loads any investor pays (i.e., the combined distribution expenses of both the acquiring fund and the acquired funds) does not exceed the limits on sales loads established by Financial Industry Regulatory Authority (“FINRA”) for funds of funds, and the registered investment company “mirror votes” any securities purchased pursuant to Section 12(d)(1)(F).

Exchange Traded Funds

ETFs are often passive funds that track their related index and have the flexibility of trading like a security. They are managed by professionals and typically provide the investor with diversification, cost and tax efficiency, liquidity, marginability, are useful for hedging, have the ability to go long and short, and some provide quarterly dividends. Additionally, some ETFs are unit investment trusts. Under certain circumstances, the adviser may invest in ETFs, known as “inverse funds,” which are designed to produce results opposite to market trends. Inverse ETFs are funds designed to rise in price when stock prices are falling.

ETFs have two markets. The primary market is where institutions swap “creation units” in block-multiples of, for example, 25,000 shares for in-kind securities and cash in the form of dividends. The secondary market is where individual investors can trade as little as a single share during trading hours on the exchange. This is different from open-ended mutual funds that are traded after hours once the NAV is calculated. ETFs share many similar risks with open-end and closed-end funds.

Master Limited Partnerships (“MLPs”)

An MLP is an entity that is generally taxed as a partnership for federal income tax purposes and that derives each year at least 90% of its gross income from “Qualifying Income.” Qualifying Income for MLPs includes interest, dividends, real estate rents, gain from the sale or disposition of real property, income and gain from commodities or commodity futures, and income and gain from mineral or natural resources activities that generate Qualifying Income. MLP interests (known as units) are traded on securities exchanges or over-the-counter. An MLP’s organization as a partnership and compliance with the Qualifying Income rules generally eliminates federal tax at the entity level.

An MLP has one or more general partners (who may be individuals, corporations, or other partnerships) which manage the partnership, and limited partners, which provide capital to the partnership but have no role in its management. Typically, the general partner is owned by company management or another publicly traded sponsoring corporation. When an investor buys units in an MLP, the investor becomes a limited partner.

MLPs are formed in several ways. A nontraded partnership may decide to go public. Several nontraded partnerships may roll up into a single MLP. A corporation may spin-off a group of assets or part of its business into an MLP of which it is the general partner, to realize the assets’ full value on the marketplace by selling the assets and using the cash proceeds received from the MLP to address debt obligations or to invest in higher growth opportunities, while retaining control of the MLP. A corporation may fully convert to an MLP, although since 1986 the tax consequences have made this an unappealing option for most corporations. Unlike the ways described above, it is also possible for a newly formed entity to commence operations as an MLP from its inception.

The sponsor or general partner of an MLP, other energy companies, and utilities may sell assets to MLPs in order to generate cash to fund expansion projects or repay debt. The MLP structure essentially transfers cash flows generated from these acquired assets directly to MLP limited partner unitholders.

In the case of an MLP buying assets from its sponsor or general partner the transaction is intended to be based upon comparable terms in the acquisition market for similar assets. To help ensure that appropriate protections are in place, the board of the MLP generally creates an independent committee to review and approve the terms of the transaction. The committee often obtains a fairness opinion and can retain counsel or other experts to assist its evaluation. Since both parties normally have a significant equity stake in the MLP, both parties are aligned to see that the transaction is accretive and fair to the MLP.

As a motivation for the general partner to successfully manage the MLP and increase cash flows, the terms of MLPs typically provide that the general partner receives a larger portion of the net income as distributions reach higher target levels. As cash flow grows, the general partner receives a greater interest in the incremental income compared to the interest of limited partners. Although the percentages vary among MLPs, the general partner's marginal interest in distributions generally increases from 2% to 15% at the first designated distribution target level moving up to 25% and ultimately 50% as pre-established distribution per unit thresholds are met. Nevertheless, the aggregate amount distributed to limited partners will increase as MLP distributions reach higher target levels. Given this incentive structure, the general partner has an incentive to streamline operations and undertake acquisitions and growth projects in order to increase distributions to all partners.

Because the MLP itself generally does not pay federal income tax, its income or loss is allocated to its investors, irrespective of whether the investors receive any cash payment or other distributions from the MLP. An MLP typically makes quarterly cash distributions. Although they resemble corporate dividends, MLP distributions are treated differently for tax purposes. The MLP distribution is treated as a return of capital to the extent of the investor's basis in his MLP interest and, to the extent the distribution exceeds the investor's basis in the MLP, generally as capital gain. The investor's original basis is the price paid for the units. The basis is adjusted downwards with each distribution and allocation of deductions (such as depreciation) and losses, and upwards with each allocation of taxable income and gain. If a Fund keeps MLP investments until the basis is zero, subsequent distributions will be taxable to the Fund at ordinary income rates and shareholders may receive a corrected 1099.

The partner will not incur federal income tax on distributions until: (1) they sell their MLP units and pay tax on their gain, which gain is increased due to the basis decrease due to prior distributions; or (2) his basis reaches zero. When the units are sold, the difference between the sales price and the investor's adjusted basis is gain or loss for federal income tax purposes.

The business of certain MLPs is affected by supply and demand for energy commodities because such MLPs derive revenue and income based upon the volume of the underlying commodity produced, transported, processed, distributed, and/or marketed. Pipeline MLPs have indirect commodity exposure to gas and oil price volatility because although they do not own the underlying energy commodity, the general level of commodity prices may affect the volume of the commodity that the MLP delivers to its customers and the cost of providing services such as distributing natural gas liquids. The costs of natural gas pipeline MLPs to perform services may exceed the negotiated rates under "negotiated rate" contracts. Specifically, processing MLPs may be directly affected by energy commodity prices. Propane MLPs own the underlying energy commodity, and therefore have direct exposure to energy commodity prices, although the Adviser intends to target high quality MLPs that seek to mitigate or manage direct margin exposure to commodity prices. However, the MLP industry in general could be hurt by market perception that an MLP's performance and valuation are directly tied to commodity prices.

Pay-in-Kind Securities

The Fund may invest in pay-in-kind securities. Pay-in-kind securities pay dividends or interest in the form of additional securities of the issuer, rather than in cash. These securities are usually issued and traded at a discount from their face amounts. The amount of the discount varies depending on various factors, such as the time remaining until maturity of the securities, prevailing interest rates, the liquidity of the security and the perceived credit quality of the issuer. The market prices of pay-in-kind securities generally are more volatile than the market prices of securities that pay interest periodically and are likely to respond to changes in interest rates to a greater degree than are other types of securities having similar maturities and credit quality.

Portfolio Turnover (Active Trading)

Portfolio turnover is a measure of how frequently a portfolio's securities are bought and sold. The portfolio turnover rate is generally calculated as the dollar value of the lesser of a portfolio's purchases or sales of shares of securities during a given year, divided by the monthly average value of the portfolio securities during that year (excluding securities whose maturity or expiration at the time of acquisition were less than one year). For example, a portfolio reporting a 100% portfolio turnover rate would have purchased and sold securities worth as much as the monthly average value of its portfolio securities during the year.

It is not possible to predict future turnover rates with accuracy. Many variable factors are outside the control of a portfolio manager. The investment outlook for the securities in which a portfolio may invest may change as a result of unexpected developments in securities markets, economic or monetary policies, or political relationships. High market volatility may result in a portfolio manager using a more active trading strategy than might otherwise be employed. The portfolio manager considers the economic effects of portfolio turnover but generally does not treat the portfolio turnover rate as a limiting factor in making investment decisions.

Sale of shares by investors may require the liquidation of portfolio securities to meet cash flow needs. In addition, changes in a particular portfolio's holdings may be made whenever the portfolio manager considers that a security is no longer appropriate for the portfolio or that another security represents a relatively greater opportunity. Such changes may be made without regard to the length of time that a security has been held.

Higher portfolio turnover rates generally increase transaction costs that are expenses of the Account. Active trading may generate short-term gains (losses) for taxable shareholders.

Real Estate Investment Trusts

The Fund may invest in securities of real estate investment trusts ("REITs"). REITs are publicly traded corporations or trusts that specialize in acquiring, holding and managing residential, commercial or industrial real estate. A REIT is not taxed at the entity level on income distributed to its shareholders or unitholders if it distributes to shareholders or unitholders at least 95% of its taxable income for each taxable year and complies with regulatory requirements relating to its organization, ownership, assets and income.

REITs generally can be classified as "Equity REITs", "Mortgage REITs" and "Hybrid REITs." An Equity REIT invests the majority of its assets directly in real property and derives its income primarily from rents and from capital gains on real estate appreciation, which are realized through property sales. A Mortgage REIT invests the majority of its assets in real estate mortgage loans and services its income primarily from interest payments. A Hybrid REIT combines the characteristics of an Equity REIT and a Mortgage REIT. Although the Fund can invest in all three kinds of REITs, its emphasis is expected to be on investments in Equity REITs.

Investments in the real estate industry involve particular risks. The real estate industry has been subject to substantial fluctuations and declines on a local, regional and national basis in the past and may continue to be in the future. Real property values and income from real property continue to be in the future. Real property values and income from real property may decline due to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, regulatory limitations on rents, changes in neighborhoods and in demographics, increases in market interest rates, or other factors. Factors such as these may adversely affect companies that own and operate real estate directly, companies that lend to such companies, and companies that service the real estate industry.

Investments in REITs also involve risks. Equity REITs will be affected by changes in the values of and income from the properties they own, while Mortgage REITs may be affected by the credit quality of the mortgage loans they hold. In addition, REITs are dependent on specialized management skills and on their ability to generate cash flow for operating purposes and to make distributions to shareholders or unitholders. REITs may have limited diversification and are subject to risks associated with obtaining financing for real property, as well as to the risk of self-liquidation. REITs also can be adversely affected by their failure to qualify for tax-free pass-through treatment of their income under the Internal Revenue Code of 1986, as amended, or their failure to maintain an exemption from registration under the 1940 Act. By investing in REITs indirectly through the Fund, a shareholder bears not only a proportionate share of the expenses of the Fund, but also may indirectly bear similar expenses of some of the REITs in which it invests.

Repurchase Agreements

The Fund may enter into repurchase agreements. In a repurchase agreement, investors (such as the Fund) purchase a security (known as the “underlying security”) from a securities dealer or bank. Any such dealer or bank must be deemed creditworthy by the Adviser. At that time, the bank or securities dealer agrees to repurchase the underlying security at a mutually agreed upon price on a designated future date. The repurchase price may be higher than the purchase price, the difference being income to the Fund, or the purchase and repurchase prices may be the same, with interest at an agreed upon rate due to the Fund on repurchase. In either case, the income to the Fund generally will be unrelated to the interest rate on the underlying securities. Repurchase agreements must be “fully collateralized,” in that the market value of the underlying securities (including accrued interest) must at all times be equal to or greater than the repurchase price. Therefore, a repurchase agreement can be considered a loan collateralized by the underlying securities.

Repurchase agreements are generally for a short period of time, often less than a week, and will generally be used by the Fund to invest excess cash or as part of a temporary defensive strategy. Repurchase agreements that do not provide for payment within seven days will be treated as illiquid securities. In the event of a bankruptcy or other default by the seller of a repurchase agreement, the Fund could experience both delays in liquidating the underlying security and losses. These losses could result from: (a) possible decline in the value of the underlying security while the Fund is seeking to enforce its rights under the repurchase agreement; (b) possible reduced levels of income or lack of access to income during this period; and (c) expenses of enforcing its rights.

Securities Lending

The Fund may lend portfolio securities to certain borrowers that the Adviser determines to be creditworthy. The borrowers provide collateral that is maintained in an amount at least equal to the current market value of the securities loaned. No securities loan shall be made on behalf of a Fund if, as a result, the aggregate value of all securities loaned by the Fund exceeds one-third of the value of the Fund’s total assets (including the value of the collateral received). The Fund may terminate a loan at any time and obtain the return of the securities loaned. The Fund receives, by way of substitute payment, the value of any interest or cash or non-cash distributions paid on the loaned securities that it would have received if the securities were not on loan. With respect to loans that are collateralized by cash, the borrower may be entitled to receive a fee based on the amount of cash collateral. The Fund is typically compensated by the difference between the amount earned on the reinvestment of cash collateral and the fee paid to the borrower. In the case of collateral other than cash, the Fund is typically compensated by a fee paid by the borrower equal to a percentage of the market value of the loaned securities. Any cash collateral may be reinvested in certain short-term instruments either directly on behalf of the Fund or through one or more joint accounts or money market funds; such investments are subject to investment risk.

Securities lending involves exposure to certain risks, including operational risk (i.e., the risk of losses resulting from problems in the settlement and accounting process), “gap” risk (i.e., the risk of a mismatch between the return on cash collateral reinvestments and the fees the Fund has agreed to pay a borrower), and credit, legal, counterparty and market risk. If a securities lending counterparty were to default, the Fund would be subject to the risk of a possible delay in receiving collateral or in recovering the loaned securities, or to a possible loss of rights in the collateral. In the event a borrower does not return the Fund’s securities as agreed, the Fund may experience losses if the proceeds received from liquidating the collateral do not at least equal the value of the loaned security at the time the collateral is liquidated, plus the transaction costs incurred in purchasing replacement securities. This event could trigger adverse tax consequences for the Fund. The Fund could lose money if its short-term investment of the collateral declines in value over the period of the loan. Substitute payments received by the Fund representing dividends paid on securities loaned out by the Fund will not be considered qualified dividend income. The Adviser will take into account the tax effects on shareholders caused by this difference in connection with the Fund’s securities lending program. Substitute payments received on tax-exempt securities loaned out will not be tax-exempt income.

Short-Term Instruments and Temporary Investments

The Fund may invest in short-term instruments, including money market instruments, on an ongoing basis to provide liquidity or for other reasons. Money market instruments are generally short-term investments that may include, but are not limited to: (i) shares of money market funds; (ii) obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities (including government-sponsored enterprises); (iii) negotiable certificates of deposit, bankers’ acceptances, fixed-time deposits and other obligations of U.S. and non-U.S. banks (including non-U.S. branches) and similar institutions; (iv) commercial paper, including asset-backed commercial paper; (v) non-convertible corporate debt securities (e.g., bonds and debentures) with remaining maturities at the date of purchase of not more than 397 days and that have been determined to present minimal credit risks, in accordance with the requirements set forth in Rule 2a-7 under the 1940 Act; (vi) repurchase agreements; and (vii) short-term U.S. dollar-denominated obligations of non-U.S. banks (including U.S. branches) that are of comparable quality to obligations of U.S. banks that may be purchased by the Fund.

Any of these instruments may be purchased on a current or forward-settled basis. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Certificates of Deposit and Bankers' Acceptances

Certificates of deposit are receipts issued by a depository institution in exchange for the deposit of funds. The issuer agrees to pay the amount deposited plus interest to the bearer of the receipt on the date specified on the certificate. The certificate usually can be traded in the secondary market prior to maturity. Bankers' acceptances typically arise from short-term credit arrangements designed to enable businesses to obtain funds to finance commercial transactions. Generally, an acceptance is a time draft drawn on a bank by an exporter or an importer to obtain a stated amount of funds to pay for specific merchandise. The draft is then "accepted" by a bank that, in effect, unconditionally guarantees to pay the face value of the instrument on its maturity date. The acceptance may then be held by the accepting bank as an earning asset or it may be sold in the secondary market at the going rate of discount for a specific maturity. Although maturities for acceptances can be as long as 270 days, most acceptances have maturities of six months or less.

Commercial Paper

Commercial paper consists of short-term (usually from 1 to 270 days) unsecured promissory notes issued by corporations in order to finance their current operations. It may be secured by letters of credit, a surety bond or other forms of collateral. Commercial paper is usually repaid at maturity by the issuer from the proceeds of the issuance of new commercial paper. As a result, investment in commercial paper is subject to the risk the issuer cannot issue enough new commercial paper to satisfy its outstanding commercial paper, also known as rollover risk. Commercial paper may become illiquid or may suffer from reduced liquidity in certain circumstances. Like all fixed income securities, commercial paper prices are susceptible to fluctuations in interest rates. If interest rates rise, commercial paper prices will decline. The short-term nature of a commercial paper investment makes it less susceptible to interest rate risk than many other fixed income securities because interest rate risk typically increases as maturity lengths increase. Commercial paper tends to yield smaller returns than longer-term corporate debt because securities with shorter maturities typically have lower effective yields than those with longer maturities. As with all fixed income securities, there is a chance that the issuer will default on its commercial paper obligation.

Sovereign and Quasi-Sovereign Obligations

The Fund may invest in sovereign and quasi-sovereign obligations. An investment in sovereign debt obligations involves special risks not present in corporate debt obligations. Sovereign debt includes securities issued or guaranteed by a foreign sovereign government. Quasi-sovereign debt includes securities issued or guaranteed by an entity affiliated with or backed by a sovereign government. The issuer of the sovereign debt that controls the repayment of the debt may be unable or unwilling to repay principal or interest when due, and the Fund may have limited recourse in the event of a default. Similar to other issuers, changes to the financial condition or credit rating of a non-U.S. government may cause the value of a sovereign debt to decline. During periods of economic uncertainty, the market prices of sovereign debt obligations may be more volatile than prices of U.S. debt obligations, which may affect the Fund's NAV. In the past, certain emerging market countries have encountered difficulties in servicing their debt obligations, withheld payments of principal and interest and declared a moratorium on the payment of principal and interest on their sovereign debts. Several sovereign issuers have experienced volatility and adverse trends due to concerns about rising government debt levels. A sovereign debtor's willingness or ability to repay principal and pay interest in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its non-U.S. currency reserves, the availability of sufficient foreign exchange, the relative size of the debt service burden, the sovereign debtor's policy toward principal international lenders and local political constraints. Sovereign debtors may also be dependent on expected disbursements from foreign governments, multilateral agencies and other entities to reduce principal and interest arrears on their debt. The failure of a sovereign debtor to implement economic reforms, achieve specified levels of economic performance or repay principal or interest when due may result in the cancellation of third-party commitments to lend funds to the sovereign debtor, which may further impair such debtor's ability or willingness to service its debts.

United States Government Obligations

These consist of various types of marketable securities issued by the United States Treasury, i.e., bills, notes and bonds. Such securities are direct obligations of the United States government and differ mainly in the length of their maturity. Treasury bills, the most frequently issued marketable government security, have a maturity of up to one year and are issued on a discount basis. These consist of debt securities issued by agencies and instrumentalities of the United States government, including the various types of instruments currently outstanding or which may be offered in the future. Agencies include, among others, the Federal Housing Administration, Government National Mortgage Association ("Ginnie Mae"), Farmer's Home Administration, Export-Import Bank of the United States, Maritime Administration, and General Services

Administration. Instrumentalities include, for example, each of the Federal Home Loan Banks, the National Bank for Cooperatives, the Federal Home Loan Mortgage Corporation (“Freddie Mac”), the Farm Credit Banks, the Federal National Mortgage Association (“Fannie Mae”), and the United States Postal Service. These securities are either: (i) backed by the full faith and credit of the United States government (e.g., United States Treasury Bills); (ii) guaranteed by the United States Treasury (e.g., Ginnie Mae mortgage-backed securities); (iii) supported by the issuing agency’s or instrumentality’s right to borrow from the United States Treasury (e.g., Fannie Mae Discount Notes); or (iv) supported only by the issuing agency’s or instrumentality’s own credit (e.g., Tennessee Valley Association).

Government-related guarantors (i.e. not backed by the full faith and credit of the United States government) include Fannie Mae and Freddie Mac. Fannie Mae is a government-sponsored corporation owned entirely by private stockholders. It is subject to general regulation by the Secretary of Housing and Urban Development. Fannie Mae purchases conventional (i.e., not insured or guaranteed by any government agency) residential mortgages from a list of approved seller/servicers which include state and federally chartered savings and loan associations, mutual savings banks, commercial banks and credit unions and mortgage bankers. Pass-through securities issued by Fannie Mae are guaranteed as to timely payment of principal and interest by Fannie Mae but are not backed by the full faith and credit of the United States government.

Freddie Mac was created by Congress in 1970 for the purpose of increasing the availability of mortgage credit for residential housing. It is a government-sponsored corporation formerly owned by the twelve Federal Home Loan Banks and now owned entirely by private stockholders. Freddie Mac issues participation certificates (“PCs”), which represent interests in conventional mortgages from Freddie Mac’s national portfolio. Freddie Mac guarantees the timely payment of interest and ultimate collection of principal, but PCs are not backed by the full faith and credit of the United States government. Commercial banks, savings and loan institutions, private mortgage insurance companies, mortgage bankers and other secondary market issuers also create pass-through pools of conventional residential mortgage loans. Such issuers may, in addition, be the originators and/or servicers of the underlying mortgage loans as well as the guarantors of the mortgage-related securities. Pools created by such nongovernmental issuers generally offer a higher rate of interest than government and government-related pools because there are no direct or indirect government or agency guarantees of payments in the former pools. However, timely payment of interest and principal of these pools may be supported by various forms of insurance or guarantees, including individual loan, title, pool and hazard insurance and letters of credit. The insurance and guarantees are issued by governmental entities, private insurers and the mortgage poolers.

On September 7, 2008, the U.S. Treasury Department and the Federal Housing Finance Authority (the “FHFA”) announced that Fannie Mae and Freddie Mac had been placed into conservatorship, a statutory process designed to stabilize a troubled institution with the objective of returning the entity to normal business operations. The U.S. Treasury Department and the FHFA at the same time established a secured lending facility and a Secured Stock Purchase Agreement with both Fannie Mae and Freddie Mac to ensure that each entity had the ability to fulfill its financial obligations. The FHFA announced that it does not anticipate any disruption in pattern of payments or ongoing business operations of Fannie Mae or Freddie Mac.

When-Issued, Forward Commitments and Delayed Settlements

The Fund may purchase and sell securities on a when-issued, forward commitment or delayed settlement basis. In this event, the Custodian (as defined under the section entitled “Custodian”) will segregate liquid assets equal to the amount of the commitment in a separate account. Normally, the Custodian will set aside portfolio securities to satisfy a purchase commitment. In such a case, the Fund may be required subsequently to segregate additional assets in order to assure that the value of the account remains equal to the amount of the Fund’s commitment. It may be expected that the Fund’s net assets will fluctuate to a greater degree when it sets aside portfolio securities to cover such purchase commitments than when it sets aside cash.

The Fund does not intend to engage in these transactions for speculative purposes but only in furtherance of their investment objectives. Because the Fund segregates liquid assets to satisfy purchase commitments in the manner described, the Fund’s liquidity and the ability of the Adviser to manage them may be affected in the event the Fund’s forward commitments, commitments to purchase when-issued securities and delayed settlements ever exceeded 15% of the value of its net assets.

The Fund purchases securities on a when-issued, forward commitment or delayed settlement basis only with the intention of completing the transaction. If deemed advisable as a matter of investment strategy, however, the Fund may dispose of or renegotiate a commitment after it is entered into and may sell securities it has committed to purchase before those securities are delivered to the Fund on the settlement date. In these cases, the Fund may realize a taxable capital gain or loss. When the Fund engages in when-issued, forward commitment and delayed settlement transactions, it relies on the other party to consummate the trade. Failure of such party to do so may result in the Fund incurring a loss or missing an opportunity to obtain a price credited to be advantageous.

The market value of the securities underlying a when-issued purchase, forward commitment to purchase securities, or a delayed settlement and any subsequent fluctuations in their market value is taken into account when determining the market value of the Fund starting on the day the Fund agrees to purchase the securities. The Fund does not earn interest on the securities it has committed to purchase until it has paid for and delivered on the settlement date.

Management Risk

The Fund is subject to management risk because it relies on the Adviser to achieve its investment objective. The Fund runs the risk that the Adviser's investment techniques will fail to produce desired results and cause the Fund to incur significant losses. There can be no assurance that key Adviser personnel will continue to be employed by the Adviser. The loss of their services could have an adverse impact on the Adviser's ability to achieve the Fund's investment objective.

INVESTMENT RESTRICTIONS

The Fund has adopted the following investment restrictions that may not be changed without approval by a "majority of the outstanding shares" of the Fund, which, as used in this SAI, means the vote of the lesser of (a) 67% or more of the shares of the Fund represented at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented by proxy, or (b) more than 50% of the outstanding shares of the Fund. The Fund may not:

1. Issue senior securities, except as otherwise permitted under the 1940 Act, and the rules and regulations promulgated thereunder, which allow a borrowing from a bank where the Fund maintains an asset coverage ratio of at least 300% while the borrowing is outstanding;
2. Borrow money, except (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions;
3. Purchase securities on margin, participate on a joint or joint and several basis in any securities trading account, or underwrite securities. This limitation does not preclude the Fund from obtaining such short-term credit as may be necessary for the clearance of purchases and sales of its portfolio securities, and except to the extent that the Fund may be deemed an underwriter under the Securities Act, by virtue of disposing of portfolio securities;
4. Purchase or sell real estate or interests in real estate. This limitation is not applicable to investments in marketable securities that are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including REITs);
5. Purchase or sell commodities (unless acquired as a result of ownership of securities or other investments) or commodity futures contracts, except that the Fund may purchase and sell futures contracts and options to the full extent permitted under the 1940 Act, sell foreign currency contracts in accordance with any rules of the Commodity Futures Trading Commission, invest in securities or other instruments backed by commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities;
6. Invest 25% or more of its total assets in a particular industry or group of industries. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. government, its agencies and instrumentalities or repurchase agreements with respect thereto. The Fund will consider the investments of underlying investment companies when determining its compliance with this restriction.
7. Make loans to others, except that the Fund may, in accordance with its investment objective and policies, (i) lend portfolio securities, (ii) purchase and hold debt securities or other debt instruments, including but not limited to loan participations and sub-participations, assignments, and structured securities, (iii) make loans secured by mortgages on real property, (iv) enter into repurchase agreements, (v) enter into transactions where each loan is represented by a note executed by the borrower, and (vi) make time deposits with financial institutions and invest in instruments issued by financial institutions. For purposes of this limitation, the term "loans" shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities; or

If a restriction on the Fund's investments is adhered to at the time an investment is made, a subsequent change in the percentage of Fund assets invested in certain securities or other instruments of the Fund's investment portfolio, resulting from changes in the value of the Fund's total assets, will not be considered a violation of the restriction; provided, however, that the asset coverage requirement applicable to borrowings shall be maintained in the manner contemplated by applicable law.

With respect to fundamental investment limitation #2 above, if the Fund's asset coverage falls below 300%, the Fund will reduce borrowing within 3 days in order to ensure that the Fund has 300% asset coverage.

Although fundamental investment limitation #7 reserves for the Fund the ability to make loans, there is no present intent to loan money or portfolio securities and additional disclosure will be provided if such a strategy is implemented in the future.

POLICIES AND PROCEDURES FOR DISCLOSURE OF PORTFOLIO HOLDINGS

The Trust has adopted a policy regarding the disclosure of information about the Fund's portfolio holdings. Neither the Fund nor its service providers may receive compensation or any other consideration (which includes any agreement to maintain assets in the Fund or in other investment companies or accounts managed by the Adviser or any affiliated person of the Adviser) in connection with the disclosure of portfolio holdings information of the Fund. The Trust's policy is implemented and overseen by the Chief Compliance Officer of the Trust, subject to the oversight of the Board. Periodic reports regarding these procedures will be provided to the Board. The Trust, the Adviser and the Distributor (as defined below) will not disseminate non-public information concerning the Trust. The Board must approve all material amendments to this policy.

Each business day, the Fund's portfolio holdings information will generally be provided for dissemination through the facilities of the National Securities Clearing Corporation ("NSCC") and/or other fee-based subscription services to NSCC members and/or subscribers to those other fee-based subscription services, including Authorized Participants (as defined below), and to entities that publish and/or analyze such information in connection with the process of purchasing or redeeming Creation Units or trading shares of the Funds in the secondary market. This information typically reflects the Fund's anticipated holdings as of the next Business Day (as defined below).

Access to information concerning the Fund's portfolio holdings may be permitted to personnel of third-party service providers, including the Fund's custodian, transfer agent, auditors and counsel, as may be necessary to conduct business in the ordinary course in a manner consistent with such service providers' agreements with the Trust on behalf of the Fund.

Portfolio holdings information made available in connection with the creation/redemption process may be provided to other entities that provide services to the Fund in the ordinary course of business after it has been disseminated to the NSCC. From time to time, information concerning portfolio holdings other than portfolio holdings information made available in connection with the creation/redemption process, as discussed above, may be provided to other entities that provide services to the Fund, including rating or ranking organizations, in the ordinary course of business, no earlier than one business day following the date of the information.

The Fund discloses on the Fund's website at www.nationalsecurityindex.com at the start of each Business Day the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund's calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day. The Fund may also concurrently disclose its portfolio holdings information directly to ratings agencies on a daily basis.

Quarterly Portfolio Schedule. The Trust is required to disclose, after its first and third fiscal quarters, the complete schedule of the Fund's portfolio holdings with the SEC on Form N-PORT. The Trust will also disclose a complete schedule of the Fund's portfolio holdings with the SEC on Form N-CSR after its second and fourth quarters.

Form N-PORT and Form N-CSR for the Fund will be available on the SEC's website at www.sec.gov. The Fund's Form N-PORT and Form N-CSR will be available without charge, upon request, by calling 833-906-5596, visiting the Fund's website at www.nationalsecurityindex.com or by writing to the National Security Emerging Markets Index ETF, c/o Ultimus Fund Solutions, LLC, 4221 North 203rd Street, Suite 100, Elkhorn, Nebraska 68022-3474.

The Adviser. Personnel of the Adviser, including personnel responsible for managing the Fund's portfolio, may have full daily access to Fund portfolio holdings since that information is necessary in order for the Adviser to provide its management, administrative, and investment services to the Fund. As required for purposes of analyzing the impact of existing and future market changes on the prices, availability, as demand and liquidity of such securities, as well as for the assistance of portfolio managers in the trading of such securities, Adviser personnel may also release and discuss certain portfolio holdings with various broker-dealers.

Ultimus Fund Solutions, LLC. Ultimus Fund Solutions, LLC is the fund accountant, administrator and custody administrator for the Fund; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

Brown Brothers Harriman & Co. Brown Brothers Harriman & Co. is the custodian and transfer agent for the Fund; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

Cohen & Company, Ltd. Cohen & Company, Ltd. is the Fund's independent registered public accounting firm; therefore, its personnel have access to the Fund's portfolio holdings in connection with auditing of the Fund's annual financial statements and providing assistance and consultation in connection with SEC filings.

Thompson Hine LLP. Thompson Hine LLP is counsel to the Fund; therefore, its personnel have access to the Fund's portfolio holdings in connection with review of the Fund's annual and semi-annual shareholder reports and SEC filings.

Additions to List of Approved Recipients

The Trust's Chief Compliance Officer is the person responsible, and whose prior approval is required, for any disclosure of the Fund's portfolio securities at any time or to any persons other than those described above. In such cases, the recipient must have a legitimate business need for the information and must be subject to a duty to keep the information confidential. There are no ongoing arrangements in place with respect to the disclosure of portfolio holdings. In no event shall the Fund, the Adviser, or any other party receive any direct or indirect compensation in connection with the disclosure of information about the Fund's portfolio holdings.

Compliance with Portfolio Holdings Disclosure Procedures

The Trust's Chief Compliance Officer will report periodically to the Board with respect to compliance with the Fund's portfolio holdings disclosure procedures, and from time to time will provide the Board any updates to the portfolio holdings disclosure policies and procedures.

There is no assurance that the Trust's policies on disclosure of portfolio holdings will protect the Fund from the potential misuse of holdings information by individuals or firms in possession of that information.

MANAGEMENT

The business of the Trust is managed under the direction of the Board in accordance with the Agreement and Declaration of Trust and the Trust's By-laws (the "Governing Documents"), which have been filed with the SEC and are available upon request. The Board consists of four (4) individuals, three of whom are not "interested persons" (as defined under the 1940 Act) of the Trust or any investment adviser to any series of the Trust ("Independent Trustees"). Pursuant to the Governing Documents, the Board shall elect officers including a President, a Secretary, a Treasurer, a Principal Executive Officer and a Principal Accounting Officer. The Board retains the power to conduct, operate and carry on the business of the Trust and has the power to incur and pay any expenses, which, in the opinion of the Board, are necessary or incidental to carry out any of the Trust's purposes. The Board, officers, employees and agents of the Trust, when acting in such capacities, shall not be subject to any personal liability except for his or her own bad faith, willful misfeasance, gross negligence or reckless disregard of his or her duties.

Board Leadership Structure

The Trust is led by Joseph Breslin, who has served as the Chairman of the Board since July 2015. The Board is comprised of three independent Trustees. Additionally, under certain 1940 Act governance guidelines that apply to the Trust, the Independent Trustees will meet in executive session, at least quarterly. Under the Governing Documents, the Chairman of the Board is responsible for (a) presiding at Board meetings, (b) calling special meetings on an as-needed basis, (c) executing and administering of Trust policies including (i) setting the agendas for Board meetings and (ii) providing information to Board members in advance of each Board meeting and between Board meetings. The Trust believes that its Chairman, the independent chair of the Audit Committee, and, as an entity, the full Board, provide effective leadership that is in the best interests of the Trust, its funds and each shareholder.

Board Risk Oversight

The Board has a standing independent Audit Committee, Nominating and Governance Committee and Contract Review Committee, each with a separate chair. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from its Chief Compliance Officer at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial reporting and risk within its area of responsibilities. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the Chief Compliance Officer is the primary recipient and communicator of such risk-related information. The primary purposes of the Nominating and Governance Committee are to consider and evaluate the structure, composition and operation of the Board, to evaluate and recommend individuals to serve on the Board, and to consider and make recommendations relating to the compensation of the Trust's independent trustees. The Nominating and Governance Committee may consider recommendations for candidates to serve on the Board from any source it deems appropriate. The primary purpose of the Contract Review

Committee is to oversee and guide the process by which the Independent Trustees annually consider whether to approve or renew the Trust’s investment advisory, sub-advisory and distribution agreements, Rule 12b-1 plans, and such other agreements or plans involving the Trust as specified in the Contract Review Committee’s charter or as the Board determines from time to time.

Trustee Qualifications

Generally, the Trust believes that each Trustee is competent to serve because of his or her individual overall merits including his: (i) experience, (ii) qualifications, (iii) attributes and (iv) skills. Mr. Breslin has over 20 years of business experience in the investment management and brokerage business and possesses a strong understanding of the regulatory framework under which investment companies must operate based, in part, upon his years of service as an officer and/or Trustee to other registered investment companies. Thomas Sarkany is qualified to serve as a Trustee based on his experience in various business and consulting positions, and through his experience from service as a board member of the Trust and other investment companies. Since 2010, he has been the President of a financial services firm and from 1994 through 2010, held various roles at a publicly held company providing financial research, publications and money management services to retail and institutional investors, including Director of Marketing and Asset Management, Director of Index Licensing, and member of the Board of Directors. In addition to his service as a Trustee of the Trust, Mr. Sarkany serves as a trustee of the Northern Lights Fund Trust II and has previously served as a director of certain public companies. Charles R. Ranson has more than 20 years’ experience in strategic analysis and planning, risk assessment, and capital formation in the operation of complex organizations and entrepreneurial ventures. In addition to his service to the Trust, Mr. Ranson serves as an independent trustee to another mutual fund complex. Wendy Wang has more than 30 years’ experience in the mutual fund tax and compliance services industry. Ms. Wang has served as a Senior Vice President and Director of Tax and Compliance administration of Ultimus since 2019, overseeing both the Post Trade Compliance Team and the Tax Team at Ultimus. Ms. Wang is an “interested person” under the 1940 Act because of her role as President of the Trust. Each Trustee’s ability to perform his or her duties effectively also has been enhanced by his educational background and professional training. The Trust does not believe any one factor is determinative in assessing a Trustee’s qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The following is a list of the Trustees and executive officers of the Trust and each person’s principal occupation over the last five years. The business address of each Trustee and Officer is 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246. All correspondence to the Trustees and Officers should be directed to c/o Gemini Fund Services, LLC, P.O. Box 541150, Omaha, Nebraska 68154.

Independent Trustees

* The term of office for each Trustee and officer listed above will continue indefinitely until the individual resigns or is removed.

** As of August 31, 2023, the Trust was comprised of 30 other active portfolios managed by unaffiliated investment advisers. The term "Fund Complex" applies only to the funds within the Trust managed by the Adviser.

***Ms. Wang is an interested Trustee because she is also an officer of the Trust.

Board Committees

Audit Committee

The Board has an Audit Committee that consists of all the Independent Trustees. The Audit Committee's responsibilities include: (i) recommending to the Board the selection, retention or termination of the Trust's independent auditors; (ii) reviewing with the independent auditors the scope, performance and anticipated cost of their audit; (iii) discussing with the independent auditors certain matters relating to the Trust's financial statements, including any adjustment to such financial statements recommended by such independent auditors, or any other results of any audit; (iv) reviewing on a periodic basis a formal written statement from the independent auditors with respect to their independence, discussing with the independent auditors any relationships or services disclosed in the statement that may impact the objectivity and

independence of the Trust's independent auditors and recommending that the Board take appropriate action in response thereto to satisfy itself of the auditor's independence; and (v) considering the comments of the independent auditors and management's responses thereto with respect to the quality and adequacy of the Trust's accounting and financial reporting policies and practices and internal controls. The Audit Committee operates pursuant to an Audit Committee Charter. The Audit Committee is also responsible for reviewing and setting Independent Trustee compensation from time to time when considered necessary or appropriate.

Nominating and Governance Committee

The Board has a Nominating and Governance Committee that consists of all the Independent Trustees. The Nominating and Governance Committee's responsibilities (which may also be conducted by the Board) include: (i) recommend persons to be nominated or re-nominated as Trustees in accordance with the Independent Trustee's Statement of Policy on Criteria for Selecting Independent Trustees; (ii) review the Fund's officers, and conduct Chief Compliance Officer searches, as needed, and provide consultation regarding other CCO matters, as requested; (iii) reviewing trustee qualifications, performance, and compensation; (iv) review periodically with the Board the size and composition of the Board as a whole; (v) annually evaluate the operations of the Board and its Committees and assist the Board in conducting its annual self-evaluation; (vi) make recommendations on the requirements for, and means of, Board orientation and training; (vii) periodically review the Board's corporate governance policies and practices and recommend, as it deems appropriate, any changes to the Board; (ix) considering any corporate governance issues that arise from time to time, and to develop appropriate recommendations for the Board; and (x) supervising counsel for the Independent Trustees. Mr. Ranson serves as the Chairman of the Nominating and Governance Committee. The Nominating and Governance Committee operates pursuant to a Nominating and Governance Committee Charter.

Contract Review Committee

The Board has a Contract Review Committee that consists of all the Independent Trustees. The primary purpose of the Contract Review Committee is to oversee and guide the process by which the Independent Trustees annually consider whether to approve or renew the Trust's investment advisory, sub-advisory and distribution agreements, Rule 12b-1 plans, and such other agreements or plans involving the Trust as specified in the Contract Review Committee's charter or as the Board determines from time to time. The Board may also assign to the Contract Review Committee responsibility to evaluate and make recommendations on contracts in unusual situations, for example, where a contract is expected to terminate because of a change of control of an investment adviser. The Contract Review Committee's responsibilities include: (i) identifying the scope and format of information to be requested from service providers in connection with the evaluation of each contract or plan and meet and evaluate such information at least annually in advance of the automatic expiration of such contracts by operation of law or by their terms; (ii) providing guidance to independent legal counsel regarding specific information requests to be made by such counsel on behalf of the Board; (iii) evaluating regulatory and other developments coming to its attention that might reasonably be expected to have an impact on the Board's consideration of how to evaluate and whether or not to renew a contract or plan; (iv) assisting in circumscribing the range of factors considered by the Board relating to the approval or renewal of advisory or sub-advisory agreements; (v) recommending to other committees and/or to the Board specific steps to be taken by them regarding the renewal process, including, for example, proposed schedules of meetings by the Board; (vi) investigating and reporting on any other matter brought to its attention within the scope of its duties; and (vii) performing such other duties as are consistent with the Contract Review Committee's purpose or that are assigned to it by the Board. Mr. Sarkany serves as the Chairman of the Contract Review Committee. The Contract Review Committee operates pursuant to a Contract Review Committee Charter.

Compensation

Each Independent Trustee receives a quarterly fee of \$22,500 to be paid by the Trust within 10 days of the commencement of each calendar quarter for his service as a Trustee of the Board and for serving in his respective capacity as Chair of the Audit Committee, Nominating and Governance Committee and Contract Review Committee, as well as reimbursement for any reasonable expenses incurred for attending regularly scheduled Board and Committee meetings.

Additionally, in the event that an in-person meeting of the Board other than its regularly scheduled meetings (a "Special Meeting") is required, each Independent Trustee receives a fee of \$5,000 per Special Meeting, as well as reimbursement for any reasonable expenses incurred, to be paid by the Trust or the relevant series of the Trust or its investment adviser depending on the circumstances necessitating the Special Meeting. The Board at its sole discretion shall determine when a particular meeting constitutes a Special Meeting for purpose of the \$5,000 fee.

Neither the Interested Trustee nor any of the executive officers receive compensation from the Trust.

The table below details the amount of compensation the Independent Trustees are expected to receive from the Fund during the initial fiscal period ended August 31, 2024. Each Independent Trustee is expected to attend all quarterly meetings during the period. The Trust does not have a bonus, profit sharing, pension or retirement plan.

Independent Trustee	Estimated Compensation from the Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Annual Benefits Upon Retirement	Estimated Total Compensation From Trust and Fund Complex* Paid to Trustees
Joseph Breslin	\$4,566	\$0	\$0	\$9,154
Thomas Sarkany	\$4,566	\$0	\$0	\$9,145
Charles Ranson	\$4,566	\$0	\$0	\$9,154

* There are currently numerous series comprising the Trust. The term "Fund Complex" refers only to the Fund and the Inverse Cramer Tracker ETF, and not to any other series of the Trust.

Management and Trustee Ownership

As of the date of this SAI, the Trustees and officers, as a group, owned no shares of the Fund or any of the Fund Complex's outstanding shares.

CONTROL PERSONS AND PRINCIPAL HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of a fund. A control person is one who owns, either directly or indirectly more than 25% of the voting securities of a company or acknowledges the existence of control. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of a company or acknowledged the existence of control.

The Depository Trust Company ("DTC") or its nominee is the record owner of all outstanding shares and is recognized as the owner of all shares for all purposes. Investors owning shares are beneficial owners as shown on the records of DTC or its participants. As of the date of this SAI, the Funds had not commenced operations.

INVESTMENT ADVISER

Investment Adviser and the Advisory Agreement

Tuttle Capital Management, LLC, 155 Lockwood Road, Riverside, CT 06878, serves as the Fund's investment adviser. The Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended.

Subject to the oversight of the Board, the Adviser is responsible for the overall management of the Fund's investment-related business affairs.

Pursuant to an investment advisory agreement (the "Advisory Agreement") with the Trust, on behalf of the Fund, the Adviser, subject to the oversight of the Board, and in conformity with the stated policies of the Fund, supervises the portfolio investment operations of the Fund. In general, the Adviser's duties include setting the Fund's overall investment strategies.

Pursuant to the Advisory Agreement, the Adviser shall act as the investment adviser to the Fund and, as such shall, perform each of the following: (i) obtain and evaluate such information relating to the economy, industries, business, securities markets and securities as it may deem necessary or useful in discharging its responsibilities here under, (ii) formulate a continuing program for the investment of the assets of the Fund in a manner consistent with its investment objective, policies and restrictions, and (iii) determine from time to time securities to be purchased, sold, retained or lent by the Fund, and implement those decisions, including the selection of entities with or through which such purchases, sales or loans are to be effected; provided, that the Adviser or its designee, directly, will place orders pursuant to its investment determinations either directly with the issuer or with a broker or dealer, and if with a broker or dealer, (a) will attempt to obtain the best price and execution of its orders, and (b) may nevertheless in its discretion purchase and sell

portfolio securities from and to brokers who provide the Adviser with research, analysis, advice and similar services and pay such brokers in return a higher commission or spread than may be charged by other brokers. The Adviser also provides the Fund with all necessary office facilities and personnel for servicing the Fund's investments, compensates all officers, Trustees and employees of the Trust who are officers, directors or employees of the Adviser, and all personnel of the Fund or the Adviser performing services relating to research, statistical and investment activities.

In addition, the Adviser, subject to the oversight of the Board, provides the management and supplemental administrative services necessary for the operation of the Fund. These services include providing assistance in supervising relations with custodians, transfer and pricing agents, accountants, underwriters and other persons dealing with the Fund; assisting in the preparing of all general shareholder communications and conducting shareholder relations; assisting in maintaining the Fund's records and the registration of the Fund's shares under federal securities laws and making necessary filings under state securities laws; assisting in developing management and shareholder services for the Fund; and furnishing reports, evaluations and analyses on a variety of subjects to the Board.

The Fund pays an annual management fee (computed daily and payable monthly) of 0.75% of the Fund's average daily net assets to the Adviser pursuant to the Advisory Agreement. Under the Advisory Agreement, the Adviser has agreed to pay all expenses incurred by the Trust except for the advisory fee, interest, taxes, brokerage commissions and other expenses incurred in placing or settlement of orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act.

The Advisory Agreement continues in effect for two (2) years initially and shall continue from year to year provided such continuance is approved at least annually by (a) a vote of the majority of the Independent Trustees, cast in person at a meeting specifically called for the purpose of voting on such approval and by (b) the majority vote of either all of the Trustees or the vote of a majority of the outstanding shares of the Fund. The Advisory Agreement may be terminated without penalty on 60 days written notice by a vote of a majority of the Board or by the Adviser, or by holders of a majority of the Fund's outstanding shares. The Advisory Agreement shall terminate automatically in the event of its assignment.

A discussion of the matters considered by the Board in connection with the approval of the Advisory Agreement for the Fund will be available in the Fund's first report to shareholders.

Codes of Ethics

The Trust, the Adviser and the Distributor have each adopted codes of ethics (each a "Code") under Rule 17j-1 under the 1940 Act that governs the personal securities transactions of their board members, officers and employees who may have access to current trading information of the Trust.

In addition, the Trust has adopted a code of ethics (the "Trust Code"), which applies only to the Trust's executive officers to ensure that these officers promote professional conduct in the practice of corporate governance and management. The purpose behind these guidelines is to promote (i) honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships; (ii) full, fair, accurate, timely, and understandable disclosure in reports and documents that the Trust files with, or submits to, the SEC and in other public communications made by the Fund; (iii) compliance with applicable governmental laws, rule and regulations; (iv) the prompt internal reporting of violations of the Trust Code to an appropriate person or persons identified in the Trust Code; and (v) accountability for adherence to the Trust Code.

Proxy Voting Policies

The Board has adopted Proxy Voting Policies and Procedures ("Policies") on behalf of the Trust, which delegate the responsibility for voting proxies to the Adviser or its designee, subject to the Board's continuing oversight. The Policies require that the Adviser or its designee vote proxies received in a manner consistent with the best interests of the Fund and shareholders. The Policies also require the Adviser or its designee to present to the Board, at least annually, the Adviser's Proxy Policies, or the proxy policies of the Adviser's designee, and a record of each proxy voted by the Adviser or its designee on behalf of the Fund, including a report on the resolution of all proxies identified by the Adviser as involving a conflict of interest.

Where a proxy proposal raises a material conflict between the Adviser's interests and the Fund's interests, the Adviser will resolve the conflict by voting in accordance with the policy guidelines or at the client's directive using the recommendation of an independent third party. If the third party's recommendations are not received in a timely fashion, the Adviser will abstain from voting the securities held by that client's account. A copy of the Adviser's and proxy voting policies is attached hereto as Appendix A.

More information. Information regarding how the Fund voted proxies relating to portfolio securities held by the Fund during the most recent 12-month period ending June 30 will be available (1) without charge, upon request, by calling the Fund at 833-906-5569 ; and (2) on the SEC's website at <http://www.sec.gov>. In addition, a copy of the Fund's proxy voting policies and procedures are also available by calling 833-906-5569 and will be sent within three business days of receipt of a request.

THE DISTRIBUTOR

Northern Lights Distributors, LLC (the "Distributor") located at 4221 North 203rd Street, Suite 100 Elkhorn, NE 68022-3474 serves as the principal underwriter and national distributor for the shares of the Fund pursuant to a Distribution Agreement with the Trust (the "Distribution Agreement"). The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state's securities laws and is a member of FINRA. The offerings of the Shares are continuous and the Distributor acts as an agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investments or investment policies of the Fund.

The Distribution Agreement provides that, unless sooner terminated, it will continue in effect for two years initially and thereafter shall continue from year to year, subject to annual approval by the Board or a vote of a majority of the outstanding shares of the Fund.

The Distribution Agreement may at any time be terminated, without penalty by the Trust, by vote of a majority of the Board or by vote of a majority of the outstanding shares of the Trust on 60 days' written notice to the other party. The Distribution Agreement will automatically terminate in the event of its assignment.

The Fund does not pay the Distributor any fees under the Distribution Agreement. However, the Adviser pays an annual fee to the Distributor plus reasonable out-of-pocket expenses incurred by Distributor in connection with activities performed for the Fund, including, without limitation, printing and distribution of prospectuses and shareholder reports, out of its own resources.

Rule 12b-1 Plans

The Trust, with respect to the Fund, has adopted the Trust's ETF Distribution Plan Pursuant to Rule 12b-1 pursuant to Rule 12b-1 under the 1940 Act (the "Plan") for Shares pursuant to which the Fund is authorized to pay the Distributor, as compensation for Distributor's account maintenance services under the Plan. The Board has approved a distribution and shareholder servicing fee at the rate of up to 0.25% of the Fund's average daily net assets. Such fees are to be paid by the Fund monthly, or at such other intervals as the Board shall determine. Such fees shall be based upon the Fund's average daily net assets during the preceding month and shall be calculated and accrued daily. The Fund may pay fees to the Distributor at a lesser rate, as agreed upon by the Board and the Distributor. The Plan authorizes payments to the Distributor as compensation for providing account maintenance services to Fund shareholders, including arranging for certain securities dealers or brokers, administrators and others ("Recipients") to provide these services and paying compensation for these services. The Fund bear its own costs of distribution with respect to the Shares. The Plan was adopted in order to permit the implementation of the Fund's method of distribution. No fees are currently paid by the Fund under the Plan, and there are no current plans to impose such fees. In the event such fees were to be charged, over time they would increase the cost of an investment in the Fund.

The services to be provided by Recipients may include, but are not limited to, the following: assistance in the offering and sale of Shares and in other aspects of the marketing of the shares to clients or prospective clients of the respective recipients; answering routine inquiries concerning the Fund; assisting in the establishment and maintenance of accounts or sub-accounts in the Fund and in processing purchase and redemption transactions; making the Fund's investment plan and shareholder services available; and providing such other information and services to investors in Shares as the Distributor or the Trust, on behalf of the Fund, may reasonably request. The distribution services shall also include any advertising and marketing services provided by or arranged by the Distributor with respect to the Fund.

The Distributor is required to provide a written report, at least quarterly to the Board, specifying in reasonable detail the amounts expended pursuant to the Plan and the purposes for which such expenditures were made. Further, the Distributor will inform the Board of any Rule 12b-1 fees to be paid by the Distributor to Recipients.

The Plan may not be amended to increase materially the amount of the Distributor's compensation to be paid by the Fund, unless such amendment is approved by the vote of a majority of the outstanding voting securities of the Fund (as defined in the 1940 Act). All material amendments must be approved by a majority of the Board by votes cast in person at a meeting

called for the purpose of voting on the Plan. During the term of the Plan, the selection and nomination of non-interested Trustees of the Trust will be committed to the discretion of the Nominating and Governance Committee. The Distributor will preserve copies of the Plan, any related agreements, and all reports, for a period of not less than six years from the date of such document and for at least the first two years in an easily accessible place.

Any agreement related to the Plan will be in writing and provide that: (a) it may be terminated by the Trust or the Fund at any time upon sixty days written notice, without the payment of any penalty, by vote of a majority of the Board, or by vote of a majority of the outstanding voting securities of the Trust or the Fund; (b) it will automatically terminate in the event of its assignment (as defined in the 1940 Act); and (c) it will continue in effect for a period of more than one year from the date of its execution or adoption only so long as such continuance is specifically approved at least annually by a majority of the Board by votes cast in person at a meeting called for the purpose of voting on such agreement.

PORTFOLIO MANAGERS

Matthew Tuttle is the Fund's portfolio manager.

As of August 31, 2023 the portfolio manager is responsible for the portfolio management of the following types of accounts in addition to the Fund:

Total Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type (in millions)	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee (in millions)
Registered Investment Companies	7	\$325	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	0	\$0	0	\$0

Conflicts of Interest

As a general matter, certain conflicts of interest may arise in connection with a portfolio manager's management of the Fund's investments, on the one hand, and the investments of other accounts for which the portfolio manager is responsible, on the other. For example, it is possible that the various accounts managed could have different investment strategies that, at times, might conflict with one another to the possible detriment of the Fund. Alternatively, to the extent that the same investment opportunities might be desirable for more than one account, possible conflicts could arise in determining how to allocate them. Other potential conflicts might include conflicts created by specific portfolio manager compensation arrangements, and conflicts relating to selection of brokers or dealers to execute the Fund's portfolio trades and/or specific uses of commissions from the Fund's portfolio trades (for example, research, or "soft dollars", if any). The Adviser has adopted policies and procedures and has structured the portfolio managers' compensation in a manner reasonably designed to safeguard the Fund from being negatively affected as a result of any such potential conflicts.

Compensation

The portfolio manager is paid a salary and, as a co-owner of the Adviser, shares in the profits (if any) of the Adviser.

Ownership of Securities

The following table shows the dollar range of equity securities beneficially owned by the portfolio managers in the Fund as of the date of this SAI.

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund
Matthew Tuttle	\$0

ALLOCATION OF PORTFOLIO BROKERAGE

Specific decisions to purchase or sell securities for the Fund are made by the portfolio managers who are employees of the Adviser. The Adviser is authorized by the Board to allocate the orders placed by them on behalf of the Fund to brokers or dealers who may, but need not, provide research or statistical material or other services to the Fund or the Adviser for the Fund's use. Such allocation is to be in such amounts and proportions as the Adviser may determine.

In selecting a broker or dealer to execute each particular transaction, the Adviser will take the following into consideration:

- the best net price available;
- the reliability, integrity and financial condition of the broker or dealer;
- the size of and difficulty in executing the order; and
- the value of the expected contribution of the broker or dealer to the investment performance of the Funds on a continuing basis.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the transaction if the Adviser determines in good faith that such commission is reasonable in relation to the value of brokerage and research services provided to the Fund. In allocating portfolio brokerage, the Adviser may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Adviser exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the Funds, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

PORTFOLIO TURNOVER

The Fund's portfolio turnover rate is calculated by dividing the lesser of purchases or sales of portfolio securities for the fiscal year by the monthly average of the value of the portfolio securities owned by the Fund during the fiscal year. The calculation excludes from both the numerator and the denominator securities with maturities at the time of acquisition of one year or less. High portfolio turnover involves correspondingly greater brokerage commissions and other transaction costs, which will be borne directly by a Fund. A 100% turnover rate would occur if all of the Fund's portfolio securities were replaced once within a one-year period.

OTHER SERVICE PROVIDERS

Fund Administration

Ultimus Fund Solutions, LLC, (the "Administrator"), which has its principal office at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, and is primarily in the business of providing administrative, fund accounting and transfer agent services to retail and institutional mutual funds. The Administrator is an affiliate of the Distributor. The Administrator may also provide persons to serve as officers of the Fund. Such officers may be directors, officers or employees of the Administrator or its affiliates.

Pursuant to an ETF Fund Services Agreement with the Fund, the Administrator provides administrative services to the Fund, subject to the supervision of the Board. The Administrator may provide persons to serve as officers of the Fund. Such officers may be directors, officers or employees of the Administrator or its affiliates.

The ETF Fund Services Agreement is dated October 20, 2021. The agreement will remain in effect for two years from the effective date of the agreement and will remain in effect subject to annual approval of the Board for one-year periods thereafter. The agreement is terminable by the Board or the Administrator on ninety days' written notice and may be assigned provided the non-assigning party provides prior written consent. This agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of the Administrator or reckless disregard of its obligations thereunder, the Administrator shall not be liable for any action or failure to act in accordance with its duties thereunder.

Under the ETF Fund Services Agreement, the Administrator provides facilitating administrative services, including: (i) providing services of persons competent to perform such administrative and clerical functions as are necessary to provide effective administration of the Fund; (ii) facilitating the performance of administrative and professional services to the Fund by others, including the Custodian; (iii) preparing, but not paying for, the periodic updating of the Fund's Registration Statement, Prospectuses and Statements of Additional Information in conjunction with Fund counsel, including the printing of such documents for the purpose of filings with the SEC and state securities administrators, and preparing reports to the

Fund's shareholders and the SEC; (iv) preparing in conjunction with Fund counsel, but not paying for, all filings under the securities or "Blue Sky" laws of such states or countries as are designated by the Distributor, which may be required to register or qualify, or continue the registration or qualification, of the Fund and/or its shares under such laws; (v) preparing notices and agendas for meetings of the Board and minutes of such meetings in all matters required by the 1940 Act to be acted upon by the Board; and (vi) monitoring daily and periodic compliance with respect to all requirements and restrictions of the 1940 Act, the Internal Revenue Code and the Prospectus.

The Administrator also provides the Fund with accounting services, including: (i) daily computation of net asset value; (ii) maintenance of security ledgers and books and records as required by the 1940 Act; (iii) production of the Fund's listing of portfolio securities and general ledger reports; (iv) reconciliation of accounting records; (v) calculation of yield and total return for the Fund; (vi) maintenance of certain books and records described in Rule 31a-1 under the 1940 Act, and reconciliation of account information and balances among the Custodian and Adviser; and (vii) monitoring and evaluation of daily income and expense accruals, and sales and redemptions of shares of the Fund.

For administrative services rendered to the Fund under the agreement, the Fund pays the Administrator the greater of an annual minimum fee or an asset based fee, which scales downward based upon net assets. For the fund accounting services rendered to the Fund under the Agreement, the Fund pays the Administrator the greater of an annual minimum fee or an asset based fee, which scales downward based upon net assets. The Fund also pays the Administrator for any out-of-pocket expenses.

Transfer Agent

Brown Brothers Harriman & Co., located at 50 Post Office Square, Boston, MA 02110, acts as transfer, dividend disbursing, and shareholder servicing agent for the Fund pursuant to written agreement with the Fund (the "Transfer Agent"). Under the agreement, the Transfer Agent is responsible for administering and performing transfer agent functions, dividend distribution, shareholder administration, and maintaining necessary records in accordance with applicable rules and regulations.

Custodian

Brown Brothers Harriman & Co., located at 50 Post Office Square, Boston, MA 02110, (the "Custodian"), serves as the custodian of the Fund's assets pursuant to a Custodian and Transfer Agent Agreement by and between the Custodian and the Trust on behalf of the Fund. The Custodian's responsibilities include safeguarding and controlling the Fund's cash and securities, handling the receipt and delivery of securities, and collecting interest and dividends on the Fund's investments. Pursuant to the Custodian and Transfer Agent Agreement, the Custodian also maintains original entry documents and books of record and general ledgers; posts cash receipts and disbursements; and records purchases and sales based upon communications from the Adviser. The Fund may employ foreign sub-custodians that are approved by the Board to hold foreign assets.

Compliance Officer

Northern Lights Compliance Services, LLC ("NLCS"), 4221 North 203rd Street, Suite 100, Elkhorn, Nebraska 68022-3474, an affiliate of the Administrator, provides a Chief Compliance Officer to the Trust as well as related compliance services pursuant to a consulting agreement between NLCS and the Trust. NLCS's compliance services consist primarily of reviewing and assessing the policies and procedures of the Trust and its service providers pertaining to compliance with applicable federal securities laws, including Rule 38a-1 under the 1940 Act. For the compliance services rendered to the Fund, the Fund pays NLCS a one-time fee plus an annual asset based fee, which scales downward based upon net assets. The Fund also pays NLCS for any out-of-pocket expenses.

DESCRIPTION OF SHARES

Each share of beneficial interest of the Trust has one vote in the election of Trustees. Cumulative voting is not authorized for the Trust. This means that the holders of more than 50% of the shares voting for the election of Trustees can elect 100% of the Trustees if they choose to do so, and, in that event, the holders of the remaining shares will be unable to elect any Trustees.

Shareholders of the current series of the Trust and any other future series of the Trust will vote in the aggregate and not by series except as otherwise required by law or when the Board determines that the matter to be voted upon affects only the interest of the shareholders of a particular series or classes. Matters such as election of Trustees are not subject to separate voting requirements and may be acted upon by shareholders of the Trust voting without regard to series.

The Trust is authorized to issue an unlimited number of shares of beneficial interest. Each share has equal dividend, distribution and liquidation rights. There are no conversion or preemptive rights applicable to any shares of the Fund. All shares issued are fully paid and non-assessable.

ANTI-MONEY LAUNDERING PROGRAM

The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (“USA PATRIOT Act”). To ensure compliance with this law, the Trust’s Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. The Trust’s secretary serves as its Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to, determining that the Fund’s Distributor and Transfer Agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a providing a complete and thorough review of all new opening account applications. The Trust will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

PURCHASE, REDEMPTION AND PRICING OF SHARES

Calculation of Share Price

As indicated in the Prospectus under the heading “How Shares are Priced,” investors may buy and sell Shares in secondary market transactions through brokers at market prices and the Shares will trade at market prices. Only authorized participants may buy and redeem Shares from the Fund directly and those transactions are effected at the Fund’s NAV. The NAV of the Fund’s shares is determined by dividing the total value of the Fund’s portfolio investments and other assets, less any liabilities, by the total number of shares outstanding of the Fund.

Generally, the Fund’s domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the NASDAQ National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Adviser in accordance with procedures approved by the Board and as further described below. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

Certain securities or investments for which daily market quotes are not readily available may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Short-term investments having a maturity of 60 days or less may be generally valued at amortized cost when it approximated fair value.

Exchange traded options are valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the exchange on which such options are traded. Futures and options on futures are valued at the settlement price determined by the exchange, or, if no settlement price is available, at the last sale price as of the close of business prior to when the Fund calculates NAV. Other securities for which market quotes are not readily available are valued at fair value as determined in good faith by the Board or persons acting at their direction. Swap agreements and other derivatives are generally valued daily depending on the type of instrument and reference assets based upon market prices, the mean between bid and asked prices quotations from market makers or by a pricing service or other parties in accordance with the valuation procedures approved by the Board.

Under certain circumstances, the Fund may use an independent pricing service to calculate the fair market value of foreign equity securities on a daily basis by applying valuation factors to the last sale price or the mean price as noted above. The fair market values supplied by the independent pricing service will generally reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or the value of other instruments that have a strong correlation

to the fair-valued securities. The independent pricing service will also take into account the current relevant currency exchange rate. A security that is fair valued may be valued at a price higher or lower than actual market quotations or the value determined by other funds using their own fair valuation procedures. Because foreign securities may trade on days when Shares are not priced, the value of securities held by the Fund can change on days when Shares cannot be redeemed or purchased. In the event that a foreign security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closed before the Fund's calculation of NAV), the security will be valued at its fair market value as determined in good faith by the Fund's fair value committee in accordance with procedures approved by the Board as discussed below. Without fair valuation, it is possible that short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that it will prevent dilution of the Fund's NAV by short-term traders. In addition, because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of these portfolio securities may change on days when you may not be able to buy or sell Shares.

Investments initially valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services or other parties in accordance with the valuation procedures approved by the Board. As a result, the NAV of the Shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Exchange is closed and an investor is not able to purchase, redeem or exchange Shares.

Shares are valued at the close of regular trading on the Exchange (normally 4:00 p.m., Eastern time) (the "Exchange Close") on each day that the Exchange is open. For purposes of calculating the NAV, the Fund normally use pricing data for domestic equity securities received shortly after the Exchange Close and does not normally take into account trading, clearances or settlements that take place after the Exchange Close. Domestic fixed income and foreign securities are normally priced using data reflecting the earlier closing of the principal markets for those securities. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of the security or the NAV determined earlier that day.

When market quotations are insufficient or not readily available, the Fund may value securities at fair value or estimate their value as determined in good faith by the Board or its designee, pursuant to procedures approved by the Board. Fair valuation may also be used by the Board if extraordinary events occur after the close of the relevant market but prior to the Exchange Close.

Creation Units

The Fund sells and redeems Shares in Creation Units on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt of an order in proper form on any Business Day. A "Business Day" is any day on which the Exchange is open for business. As of the date of this SAI, the Exchange observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

A Creation Unit is an aggregation of 10,000 Shares for the Fund. The Board may declare a split or a consolidation in the number of Shares outstanding of the Fund or Trust and make a corresponding change in the number of Shares in a Creation Unit.

Authorized Participants

Only Authorized Participants that have entered into agreements with the Distributor may purchase or redeem Creation Units. In order to be an Authorized Participant, a firm must be either a broker-dealer or other participant ("Participating Party") in the Continuous Net Settlement System ("Clearing Process") of the National Securities Clearing Corporation ("NSCC") or a participant in DTC with access to the DTC system ("DTC Participant"), and the Authorized Participant must execute an agreement ("Participant Agreement") with the Distributor that governs transactions in the Fund's Creation Units.

Investors who are not Authorized Participants but want to transact in Creation Units may contact the Distributor for the names of Authorized Participants. An Authorized Participant may require investors to enter into a separate agreement to transact through it for Creation Units and may require orders for purchases of shares placed with it to be in a particular form. Investors transacting through a broker that is not itself an Authorized Participant and therefore must still transact through an Authorized Participant may incur additional charges. There are expected to be a limited number of Authorized Participants that have entered into Participant Agreements with the Fund at any one time.

Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor. Market disruptions and telephone or other communication failures may impede the transmission of orders.

Transaction Fees

A fixed fee payable to the Custodian is imposed on each creation and redemption transaction regardless of the number of Creation Units involved in the transaction ("Fixed Fee"). Purchases and redemptions of Creation Units for cash or involving cash-in-lieu (as defined below) are required to pay an additional variable charge to compensate the Fund and its ongoing shareholders for brokerage and market impact expenses relating to Creation Unit transactions ("Variable Charge," and together with the Fixed Fee, the "Transaction Fees"). The Adviser may waive or adjust the Transaction Fees, including the Fixed Fee and/or Variable Charge (shown in the table below), from time to time. In such cases, the Authorized Participant will reimburse the Fund for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Fund and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes. In addition, purchasers of Creation Units are responsible for the costs of transferring the Deposit Securities to the account of the Fund.

Fee for In-Kind and Cash Purchases	Maximum Additional Variable Charge for Cash Purchases*
\$1,000	2.00%

*As a percentage of the amount invested.

Investors who use the services of a broker, or other such intermediary may be charged a fee for such services.

The Clearing Process

Transactions by an Authorized Participant that is a Participating Party using the NSCC system are referred to as transactions "through the Clearing Process." Transactions by an Authorized Participant that is a DTC Participant using the DTC system are referred to as transactions "outside the Clearing Process." The Clearing Process is an enhanced clearing process that is available only for certain securities and only to DTC participants that are also participants in the Continuous Net Settlement System of the NSCC. In-kind (portions of) purchase orders not subject to the Clearing Process will go through a manual clearing process run by DTC. Portfolio Deposits that include government securities must be delivered through the Federal Reserve Bank wire transfer system ("Federal Reserve System"). Fund Deposits that include cash may be delivered through the Clearing Process or the Federal Reserve System. In-kind deposits of securities for orders outside the Clearing Process must be delivered through the Federal Reserve System (for government securities) or through DTC (for corporate securities).

Purchasing Creation Units

Portfolio Deposit

The consideration for a Creation Unit generally consists of the Deposit Securities and a Cash Component. Together, the Deposit Securities and the Cash Component constitute the "Portfolio Deposit." The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit and the Deposit Securities. Thus, the Cash Component is equal to the difference between (x) the net asset value per Creation Unit of the Fund and (y) the market value of the Deposit Securities. If (x) is more than (y), the Authorized Participant will pay the Cash Component to the Fund. If (x) is less than (y), the Authorized Participant will receive the Cash Component from the Fund.

On each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time), the Adviser or its agent through the Custodian makes available through NSCC the name and amount of each Deposit Security in the current Portfolio Deposit (based on information at the end of the previous Business Day) for the Fund and the (estimated) Cash Component, effective through and including the previous Business Day, per Creation Unit. The Deposit Securities announced are applicable to purchases of Creation Units until the next announcement of Deposit Securities.

Payment of any stamp duty or the like shall be the sole responsibility of the Authorized Participant purchasing a Creation Unit. The Authorized Participant must ensure that all Deposit Securities properly denote change in beneficial ownership.

Custom Orders and Cash-in-Lieu

The Fund may, in its sole discretion, permit or require the substitution of an amount of cash ("cash-in-lieu") to be added to the Cash Component to replace any Deposit Security. The Fund may permit or require cash-in-lieu when, for example, a Deposit Security may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, the Fund may permit or require cash in lieu of Deposit Securities when, for

example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities laws or policies from transacting in one or more Deposit Securities. The Fund complies with the federal securities laws in accepting Deposit Securities including that the Deposit Securities are sold in transactions that would be exempt from registration under the Securities Act. All orders involving cash-in-lieu, as well as certain other types of orders, are considered to be "Custom Orders." The Fund may enter into other types of Custom Orders.

Purchase Orders

To order a Creation Unit, an Authorized Participant must submit an irrevocable purchase order to the Distributor.

Timing of Submission of Purchase Orders

An Authorized Participant must submit an irrevocable purchase order no later than the earlier of (i) 4:00 p.m. Eastern Time or (ii) the closing time of the bond markets and/or the trading session on the Exchange, on any Business Day in order to receive that Business Day's NAV ("Cut-off Time"). The Cut-off Time for Custom Orders is generally two hours earlier. The Business Day the order is deemed received by the Distributor is referred to as the "Transmittal Date." An order to create Creation Units is deemed received on a Business Day if (i) such order is received by the Distributor by the Cut-off Time on such day and (ii) all other procedures set forth in the Participant Agreement are properly followed. Persons placing or effectuating custom orders and/or orders involving cash should be mindful of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may impact the successful processing of such orders to ensure that cash and securities are transferred by the "Settlement Date," which is generally the Business Day immediately following the Transmittal Date ("T+1") for cash and the second Business Day following the Transmittal Date for securities ("T+2").

Orders Using the Clearing Process

If available, (portions of) orders may be settled through the Clearing Process. In connection with such orders, the Distributor transmits, on behalf of the Authorized Participant, such trade instructions as are necessary to effect the creation order. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Portfolio Deposit to the Funds, together with such additional information as may be required by the Distributor. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System.

Orders Outside the Clearing Process

If the Clearing Process is not available for (portions of) an order, Portfolio Deposits will be made outside the Clearing Process. Orders outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will be effected through DTC. The Portfolio Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of Deposit Securities (whether standard or custom) through DTC to a Fund's account by 11:00 a.m., Eastern time, on T+1. The Cash Component, along with any cash-in-lieu and Transaction Fee, must be transferred directly to the Custodian through the Federal Reserve System in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern Time, on T+1. If the Custodian does not receive both the Deposit Securities and the cash by the appointed time, the order may be canceled. A canceled order may be resubmitted the following Business Day but must conform to that Business Day's Portfolio Deposit. Authorized Participants that submit a canceled order will be liable to a Fund for any losses incurred by the Fund in connection therewith.

Orders involving foreign Deposit Securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable purchase order, the Distributor will notify the Adviser and the Custodian of such order. The Custodian, who will have caused the appropriate local sub-custodian(s) of the Fund to maintain an account into which an Authorized Participant may deliver Deposit Securities (or cash-in-lieu), with adjustments determined by the Fund, will then provide information of the order to such local sub-custodian(s). The ordering Authorized Participant will then deliver the Deposit Securities (and any cash-in-lieu) to the Fund's account at the applicable local sub-custodian. The Authorized Participant must also make available on or before the contractual settlement date, by means satisfactory to the Fund, immediately available or same day funds in U.S. dollars estimated by the Fund to be sufficient to pay the Cash Component and Transaction Fee. When a relevant local market is closed due to local market holidays, the local market settlement process will not commence until the end of the local holiday period. Settlement must occur by 2:00 p.m., Eastern Time, on the contractual settlement date.

Acceptance of Purchase Order

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Fund. The Fund's determination shall be final and binding.

The Fund reserves the absolute right to reject or revoke acceptance of a purchase order transmitted to it by the Distributor if (a) the order is not in proper form; (b) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (c) the Deposit Securities delivered do not conform to the Deposit Securities for the applicable date; (d) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (e) the acceptance of the Portfolio Deposit would, in the opinion of counsel, be unlawful; (f) the acceptance of the Portfolio Deposit would otherwise, in the discretion of the Trust, Fund or the Adviser, have an adverse effect on the Trust, Fund or the rights of beneficial owners; or (g) in the event that circumstances outside the control of the Trust, the Distributor and the Adviser make it for all practical purposes impossible to process purchase orders. Examples of such circumstances include acts of God; public service or utility problems resulting in telephone, telecopy or computer failures; fires, floods or extreme weather conditions; market conditions or activities causing trading halts; systems failures involving computer or other informational systems affecting the Trust, the Distributor, DTC, NSCC, the Adviser, the Custodian, a sub-custodian or any other participant in the creation process; and similar extraordinary events. The Distributor shall notify an Authorized Participant of its rejection of the order. The Funds, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Portfolio Deposits, and they shall not incur any liability for the failure to give any such notification.

Issuance of a Creation Unit

Once the Fund has accepted an order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Creation Unit, against receipt of payment, at such NAV. The Distributor will transmit a confirmation of acceptance to the Authorized Participant that placed the order.

Except as provided below, a Creation Unit will not be issued until a Fund obtains good title to the Deposit Securities and the Cash Component, along with any cash-in-lieu and Transaction Fee. The delivery of Creation Units will generally occur no later than T+2 except with respect to certain foreign securities.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

With respect to orders involving foreign Deposit Securities, when the applicable local sub-custodian(s) have confirmed to the Custodian that the Deposit Securities (or cash-in-lieu) have been delivered to the Fund's account at the applicable local sub-custodian(s), the Distributor and the Adviser shall be notified of such delivery, and the Fund will issue and cause the delivery of the Creation Unit. While, as stated above, Creation Units are generally delivered on T+2, the Fund reserves the right to settle redemption transactions on a basis other than T+2 but by T+7, if necessary or appropriate under the circumstances and compliant with applicable law. Delayed settlement may occur due to a number of different reasons, including, without limitation, settlement cycles for the underlying securities, unscheduled market closings, an effort to link distribution to dividend record dates and ex-dates and newly announced holidays. For example, the redemption settlement process may be extended beyond T+2 because of the occurrence of a holiday in a non-U.S. market or in the U.S. bond market that is not a holiday observed in the U.S. equity market. In addition, the Fund may settle Creation Unit transactions on a basis other than T+2 in order to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances.

The Fund may issue a Creation Unit prior to receiving good title to the Deposit Securities, under the following circumstances. Pursuant to the applicable Participant Agreement, the Fund may issue a Creation Unit notwithstanding that (certain) Deposit Securities have not been delivered, in reliance on an undertaking by the relevant Authorized Participant to deliver the missing Deposit Securities as soon as possible, which undertaking is secured by such Authorized Participant's delivery to and maintenance with the Custodian of collateral having a value equal to at least 115% of the value of the missing Deposit Securities ("Collateral"), as adjusted by time to time by the Adviser. Such Collateral will have a value greater than the NAV of the Creation Unit on the date the order is placed. Such Collateral must be delivered no later than 2:00 p.m., Eastern Time, on T+1. The only Collateral that is acceptable to the Fund is cash in U.S. Dollars.

While (certain) Deposit Securities remain undelivered, the Collateral shall at all times have a value equal to at least 115% (as adjusted by the Adviser) of the daily marked-to-market value of the missing Deposit Securities. At any time, the Fund may use the Collateral to purchase the missing securities, and the Authorized Participant will be liable to the Fund for any costs incurred thereby or losses resulting therefrom, whether or not they exceed the amount of the Collateral, including any Transaction Fee, any amount by which the purchase price of the missing Deposit Securities exceeds the market value of such securities on the Transmittal Date, brokerage and other transaction costs. The Trust will return any unused Collateral once all of the missing securities have been received by the Fund. More information regarding the Fund's current procedures for collateralization is available from the Distributor.

Cash Purchase Method

When cash purchases of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind purchases. In the case of a cash purchase, the investor must pay the cash equivalent of the Portfolio Deposit. In addition, cash purchases will be subject to Transaction Fees, as described above.

Redeeming a Creation Unit

Redemption Basket

The consideration received in connection with the redemption of a Creation Unit generally consists of an in-kind basket of designated securities ("Redemption Securities") and a Cash Component. Together, the Redemption Securities and the Cash Component constitute the "Redemption Basket."

There can be no assurance that there will be sufficient liquidity in Shares in the secondary market to permit assembly of a Creation Unit. In addition, investors may incur brokerage and other costs in connection with assembling a Creation Unit.

The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit and the Redemption Securities. Thus, the Cash Component is equal to the difference between (x) the net asset value per Creation Unit of the Fund and (y) the market value of the Redemption Securities. If (x) is more than (y), the Authorized Participant will receive the Cash Component from the Fund. If (x) is less than (y), the Authorized Participant will pay the Cash Component to the Fund.

If the Redemption Securities on a Business Day are different from the Deposit Securities, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time), the Adviser or an agent through the Custodian makes available through NSCC the name and amount of each Redemption Security in the current Redemption Basket (based on information at the end of the previous Business Day) for the Fund and the (estimated) Cash Component, effective through and including the previous Business Day, per Creation Unit. If the Redemption Securities on a Business Day are different from the Deposit Securities, all redemption requests that day will be processed outside the Clearing Process.

An Authorized Participant's right of redemption may be suspended or the date of payment postponed for a limited time under certain exceptional circumstances such as: (i) any period during which the markets in which the ETF trades are closed (other than customary weekend and holiday closings); (ii) any period during which trading on such markets is suspended or restricted; (iii) any period during which an emergency exists as a result of which disposal of the Shares or determination of the ETF's NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the SEC, including as described below.

Custom Redemptions and Cash-in-Lieu

The Fund may, in its sole discretion, permit or require the substitution of cash-in-lieu to be added to the Cash Component to replace any Redemption Security. The Fund may permit or require cash-in-lieu when, for example, a Redemption Security may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, the Fund may permit or require cash-in-lieu of Redemption Securities when, for example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities law or policies from transacting in one or more Redemption Securities. The Fund complies with the federal securities laws in satisfying redemptions with Redemption Securities, including that the Redemption Securities are sold in transactions that would be exempt from registration under the Securities Act. All redemption requests involving cash-in-lieu are considered to be "Custom Redemptions."

Redemption Requests

To redeem a Creation Unit, an Authorized Participant must submit an irrevocable redemption request to the Distributor.

An Authorized Participant submitting a redemption request is deemed to represent to the Fund that it or, if applicable, the investor on whose behalf it is acting, (i) owns outright or has full legal authority and legal beneficial right to tender for redemption the Creation Unit to be redeemed and can receive the entire proceeds of the redemption, and (ii) all of the Shares that are in the Creation Unit to be redeemed have not been borrowed, loaned or pledged to another party nor are they the subject of a repurchase agreement, securities lending agreement or such other arrangement that would preclude the delivery of such Shares to the Fund. The Fund reserves the absolute right, in its sole discretion, to verify these representations, but will typically require verification in connection with higher levels of redemption activity and/or short interest in the Fund. If the Authorized

Participant, upon receipt of a verification request, does not provide sufficient verification of the requested representations, the redemption request will not be considered to be in proper form and may be rejected by the Fund.

Timing of Submission of Redemption Requests

An Authorized Participant must submit an irrevocable redemption order no later than the Cut-off Time. The Cut-off Time for Custom Orders is generally two hours earlier. The Business Day the order is deemed received by the Distributor is referred to as the "Transmittal Date." A redemption request is deemed received if (i) such order is received by the Distributor by the Cut-off Time on such day and (ii) all other procedures set forth in the Participant Agreement are properly followed. Persons placing or effectuating Custom Redemptions and/or orders involving cash should be mindful of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve System, which may impact the successful processing of such orders to ensure that cash and securities are transferred by the Settlement Date, as defined above.

Requests Using the Clearing Process

If available, (portions of) redemption requests may be settled through the Clearing Process. In connection with such orders, the Distributor transmits on behalf of the Authorized Participant, such trade instructions as are necessary to effect the redemption. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Creation Unit(s) to a Fund, together with such additional information as may be required by the Distributor. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System, as described above.

Requests Outside the Clearing Process

If the Clearing Process is not available for (portions of) an order, Redemption Baskets will be delivered outside the Clearing Process. Orders outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the redemption will be effected through DTC. The Authorized Participant must transfer or cause to be transferred the Creation Unit(s) of shares being redeemed through the book-entry system of DTC so as to be delivered through DTC to the Custodian by 10:00 a.m., Eastern Time, on received T+1. In addition, the Cash Component must be received by the Custodian by 12:00 p.m., Eastern Time, on T+1. If the Custodian does not receive the Creation Unit(s) and Cash Component by the appointed times on T+1, the redemption will be rejected, except in the circumstances described below. A rejected redemption request may be resubmitted the following Business Day.

Orders involving foreign Redemption Securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable redemption request, the Distributor will notify the Adviser and the Custodian. The Custodian will then provide information of the redemption to the Funds' local sub-custodian(s). The redeeming Authorized Participant, or the investor on whose behalf is acting, will have established appropriate arrangements with a broker-dealer, bank or other custody provider in each jurisdiction in which the Redemption Securities are customarily traded and to which such Redemption Securities (and any cash-in-lieu) can be delivered from the Fund's accounts at the applicable local sub-custodian(s).

Acceptance of Redemption Requests

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust. The Trust's determination shall be final and binding.

Delivery of Redemption Basket

Once the Fund has accepted a redemption request, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Redemption Basket, against receipt of the Creation Unit(s) at such NAV, any cash-in-lieu and Transaction Fee. A Creation Unit tendered for redemption and the payment of the Cash Component, any cash-in-lieu and Transaction Fee will be effected through DTC. The Authorized Participant, or the investor on whose behalf it is acting, will be recorded on the book-entry system of DTC.

The Redemption Basket will generally be delivered to the redeeming Authorized Participant within T+2. Except under the circumstances described below, however, a Redemption Basket generally will not be issued until the Creation Unit(s) are delivered to the Fund, along with the Cash Component, any cash-in-lieu and Transaction Fee.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Cash Redemption Method

When cash redemptions of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind redemptions. In the case of a cash redemption, the investor will receive the cash equivalent of the Redemption Basket minus any Transaction Fees, as described above.

TAX STATUS

The following discussion is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. All shareholders should consult a qualified tax adviser regarding their investment in the Fund.

The Fund has qualified and intend to continue to qualify and has elected to be treated as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Tax Code"), and intends to continue to so qualify, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund should not be subject to federal income or excise tax on its net investment income or net capital gain, which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Tax Code.

Net investment income is made up of dividends and interest less expenses. Net capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund. Capital losses may now be carried forward indefinitely and retain the character of the original loss. Under pre-enacted laws, capital losses could be carried forward to offset any capital gains for eight years, and carried forward as short-term capital, irrespective of the character of the original loss. Capital loss carry forwards are available to offset future realized capital gains. To the extent that these carry forwards are used to offset future capital gains it is probable that the amount offset will not be distributed to shareholders.

The Fund intends to distribute all of their net investment income, any excess of net short-term capital gains over net long-term capital losses, and any excess of net long-term capital gains over net short-term capital losses in accordance with the timing requirements imposed by the Tax Code and therefore should not be required to pay any federal income or excise taxes. Distributions of net investment income will be made semi-annually for the Fund. Distributions of net capital gain, if any, will be made annually no later than December 31 of each year. Both types of distributions will be in shares of the Fund unless a shareholder elects to receive cash.

To be treated as a regulated investment company under Subchapter M of the Tax Code, the Fund must also (a) derive at least 90% of its gross income from dividends, interest, payments with respect to securities loans, net income from certain publicly traded partnerships and gains from the sale or other disposition of securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to the business of investing in such securities or currencies, and (b) diversify its holding so that, at the end of each fiscal quarter, (i) at least 50% of the market value of the Fund's assets is represented by cash, U.S. government securities and securities of other regulated investment companies, and other securities (for purposes of this calculation, generally limited in respect of any one issuer, to an amount not greater than 5% of the market value of the Fund's assets and 10% of the outstanding voting securities of such issuer) and (ii) not more than 25% of the value of its assets is invested in the securities of (other than U.S. government securities or the securities of other regulated investment companies) any one issuer, two or more issuers that the Fund controls and that are determined to be engaged in the same or similar trades or businesses, or the securities of certain publicly traded partnerships.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the Fund generally would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from a Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Tax Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the Fund's ordinary income for the calendar year and at least 98.2% of its capital gain net income (i.e., the excess of its capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time their distributions so as to avoid liability for this tax.

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Tax Code.

Distributions of taxable net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to shareholders as ordinary income.

Distributions of net capital gain (“capital gain dividends”) generally are taxable to shareholders as long-term capital gain; regardless of the length of time the shares of the Trust have been held by such shareholders.

Certain U.S. shareholders, including individuals and estates and trusts, are subject to an additional 3.8% Medicare tax on all or a portion of their “net investment income,” which should include dividends from the Fund and net gains from the disposition of Shares. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Redemption of Shares by a shareholder will result in the recognition of taxable gain or loss in an amount equal to the difference between the amount realized and the shareholder’s tax basis in his or her Fund shares. Such gain or loss is treated as a capital gain or loss if the shares are held as capital assets. However, any loss realized upon the redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as capital gain dividends during such six-month period. All or a portion of any loss realized upon the redemption of Shares may be disallowed to the extent Shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such redemption.

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in additional cash or shares. Shareholders electing to receive distributions in the form of additional Shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a Share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in Shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Redemptions of Shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Under the Tax Code, the Fund is required to report to the Internal Revenue Service all distributions of taxable income and capital gains as well as gross proceeds from the redemption or exchange of Shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Tax Code, distributions of taxable net investment income and net capital gain and proceeds from the redemption or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional Shares, will be reduced by the amounts required to be withheld.

Original Issue Discount and Pay-In-Kind Securities

Current federal tax law requires the holder of a U.S. Treasury or other fixed income zero coupon security to accrue as income each year a portion of the discount at which the security was purchased, even though the holder receives no interest payment in cash on the security during the year. In addition, pay-in-kind securities will give rise to income, which is required to be distributed and is taxable even though the fund holding the security receives no interest payment in cash on the security during the year.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt securities that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. A portion of the OID includable in income with respect to certain high-yield corporate debt securities (including certain pay-in-kind securities) may be treated as a dividend for U.S. federal income tax purposes.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having market discount. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt security having market discount is treated as ordinary income

to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt security. Market discount generally accrues in equal daily installments. The Fund may make one or more of the elections applicable to debt securities having market discount, which could affect the character and timing of recognition of income.

Some debt securities (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having acquisition discount, or OID in the case of certain types of debt securities. Generally, the Fund will be required to include the acquisition discount, or OID, in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. The Fund may make one or more of the elections applicable to debt securities having acquisition discount, or OID, which could affect the character and timing of recognition of income.

If the Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution, if any, than they would in the absence of such transactions.

Shareholders of the Fund may be subject to state and local taxes on distributions received from the Fund and on redemptions of Shares.

A brief explanation of the form and character of the distribution accompany each distribution. In January of each year, the Fund issues to each shareholder a statement of the federal income tax status of all distributions.

Shareholders should consult their tax advisors about the application of federal, state and local and foreign tax law in light of their particular situation.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd. located at 1835 Market Street, Suite 310, Philadelphia, PA 19103, serves as the Fund’s independent registered public accounting firm for the current fiscal year. The firm provides services including (i) audit of annual financial statements, and (ii) assistance and consultation in connection with SEC filings.

LEGAL COUNSEL

Thompson Hine LLP, 41 South High Street, Suite 1700, Columbus, Ohio 43215, serves as the Trust’s legal counsel.

FINANCIAL STATEMENTS

The Fund has not yet commenced operations and, therefore, has not produced financial statements. Once produced, you can obtain a copy of the financial statements contained in the Fund’s Annual or Semi-Annual Report without charge by calling the Fund at 833-906-5569 .

Tuttle Capital Management, LLC

Proxy Voting

Background

Proxy voting is an important right of investors and reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised.

SEC-registered investment advisers that exercise voting authority with respect to client securities, are required by Rule 206(4)6 of the Advisers Act to (a) adopt and implement written policies and procedures that are reasonably designed to ensure that client securities are voted in the best interests of clients, which must include how an adviser addresses material conflicts that may arise between an adviser's interests and those of its clients; (b) to disclose to clients how they may obtain information from the adviser with respect to the voting of proxies for their securities; (c) to describe to clients a summary of its proxy voting policies and procedures and, upon request, furnish a copy to its clients; and (d) maintain certain records relating to the adviser's proxy voting activities when the adviser does have proxy voting authority.

Policy

TCM, as a matter of policy and as a fiduciary obligation to our clients, maintains the responsibility for voting proxies for portfolio securities held by accounts in which it has discretionary authority unless it delegates such responsibilities to Sub-Advisors. TCM has delegated sub-adviser oversight and proxy voting matters to its CEO or designee (e.g. Trader) with a retrospective review performed by its Brokerage Committee on a quarterly basis. Where TCM is obligated to exercise proxy voting, the Firm policy is to perform this duty consistent with the best economic interests of our clients. TCM's CEO or designee shall, prior to effectuating a client agreement, make a determination as to the obligation of proxy voting. If the CEO determines that proxy voting is the responsibility of TCM, then the procedures herein shall be followed. In cases where TCM is not obligated to vote proxies, the CEO shall confirm with the client so that both parties have a mutual understanding and, in turn, the CEO will email the CCO as to this fact to have contemporaneous supporting documentation. TCM maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our Adviser's proxy policies and practices. The Adviser will, at least annually, review its Proxy Voting policy and, where necessary, make enhancements based on the results of such review.

Consequently, for clients in which TCM maintains the proxy voting obligations attendant to other registered investment companies or separately managed account(s) for which TCM is the Adviser or Sub-Adviser, TCM shall adhere to the applicable proxy voting policies in place whether implemented by TCM or the primary investment adviser/sponsor, as may be required. Further, TCM does typically exercise the proxy voting authority for the shares it serves as ETF sub-adviser SMA sub-adviser as the Primary Investment Advisor or SMA Sponsor is typically obligated to carryout this function.

TCM will approach each corporate proxy statement on a case-by-case basis and may vote a proxy in a manner different from management's recommendation. In sum, whereupon TCM is responsible for proxy voting (inclusive of issuer proposals, corporate actions, and class action lawsuits), the Firm's CEO will consider both sides of each proxy issue and after appropriate evaluation will cast its votes according to the most favorable position.

As a general principle when responsible for proxy voting for clients and, in particular investment companies, the Adviser shall determine how to vote proxies based on our reasonable judgment of that vote insofar as what is most likely to produce favorable financial results for the clients or shareholders. Proxy votes typically will be cast in favor of proposals that maintain or strengthen the shared interests of shareholders and management, increase shareholder value, maintain or increase shareholder influence over the issuer's board of directors and management, and maintain or increase the rights of shareholders. Conversely, proxy votes will be cast against proposals having the opposite effect or in circumstances where (i) the cost of voting such proxy exceeds the expected benefit to the client; (ii) if the proxy authorizes a re-registration process imposing trading and transfer restrictions on the shares, commonly, referred to as "blocking."

In keeping with its fiduciary obligation, TCM and its CEO may not be influenced by outside sources who have interests which conflict with the interests of the Adviser's clients when voting proxies for such clients. Accordingly, our policy and procedures include the responsibility to receive and disclose any potential conflicts of interest and maintaining relevant and required records.

To help ensure that TCM votes proxies in the best interests of the client, the Adviser has established procedures highlighted by guidelines (i.e., best practices) aimed at setting forth practices to be followed by the CEO and to properly deal with a material conflict of interest. As an overarching principle, TCM views its obligations to exercise proxy votes on management and shareholder proposals at publicly traded companies as a means intended to assist institutional investors in circumstances the underlying proposals are guided by promoting long-term shareholder value creation and risk mitigation. Public companies which maintain generally strong corporate governance cultures understand these practices should respect shareholder rights and provide appropriate transparency, taking into account relevant laws, customs, and best practice codes of each market and region, as well as the right and responsibility of shareholders to make informed voting decisions.

From time to time, it is possible that CEO will decide (i) to vote shares held in client accounts differently from the vote of another client account holding the same security. Such actions may result from situations where clients are permitted to place reasonable restrictions on TCM's voting authority in the same manner that they may place such restrictions on the actual selection of account securities; or (ii) to abstain from voting on behalf of client account(s) for good reason. For example, in the absence of specific voting guidelines from the client, TCM will generally NOT vote proxies. If, however, TCM elects to vote in these instances, TCM's policy is to vote all proxies from a specific issuer the same way for each client absent qualifying restrictions from a client. TCM may determine to abstain from voting a proxy if the CEO determines doing so is not in the best interest of the client.

In connection with administrative or clerical matters, such as formally issues proxy votes and associated record retention, TCM has engaged a third-party service provider to manage such aspects of the Adviser's proxy voting obligations. For more information concerning the tasks performed by the third-party service provider (ior "Proxy Support Vendor"), including retention of the Adviser's proxy voting records, please consult with the designated representative of Proxy Support Vendor..

Procedure

Guidelines. The following guidelines will serve as parameters for the CEO in rendering a proxy vote and, in particular, viewing proposals and recommendations from management in a favorable demeanor in comparison to their counterparts who do not exhibit such tendencies:

- *Accountability.* Corporate Boards should be accountable to shareholders, the owners of the companies, by holding regular board elections, by providing sufficient information for shareholders to be able to assess directors and board composition, and by providing shareholders with the ability to remove directors. Directors should respond to investor input such as that expressed through vote results on management and shareholder proposals and other shareholder communications. Shareholders should have meaningful rights on structural provisions, such as approval of or amendments to the corporate governing documents and a vote on takeover defenses. As an example, the Adviser will generally vote against proposals that cause board members to become entrenched or cause unequal voting rights.
- *Stewardship.* A company's governance, social, and environmental practices should meet or exceed the standards of its market regulations and general practices and should take into account relevant factors that may impact significantly the company's long-term value creation. Issuers and investors should recognize constructive engagement as both a right and responsibility. As an example, the Adviser will generally vote in favor of routine corporate housekeeping proposals such as the election of directors and selection of auditors absent conflicts of interest raised by an auditor's non-audit services.
- *Independence.* Boards should be sufficiently independent so as to ensure that they are able and motivated to effectively supervise management's performance and remuneration, for the benefit of all shareholders. Boards should include an effective independent leadership position and sufficiently independent committees that focus on key governance concerns such as audit, compensation, and the selection and evaluation of directors. The Adviser, for example, will tend to vote against a corporation's board of directors or "management" proposal should it include, among others, excessive compensation, unusual management stock options, preferential voting and poison pills.
- *Transparency.* Companies should provide sufficient and timely information that enables shareholders to understand key issues, make informed vote decisions, and effectively engage with companies on substantive matters that impact shareholders' long-term interests in the company. In reviewing such proposals, the Adviser will further consider the opinion of management and the effect on management, and the effect on shareholder value and the issuer's business practices.

Voting Ballots and Records. The proxy voting practice itself is initiated at such time the company (or issuer) disseminates the proxy voting ballot ("Ballot"). Once proxy material has been received, it is promptly reviewed by the CEO (in the capacity of a CIO or PM) and the issues presented are then evaluated. In most instances, the CEO or designee receives the Ballot from the company electronically with a request to log into a secured website at which point the proxy voting proposals (e.g., Board elections, corporate governance matters, ratification of an independent registered public accounting firm, etc.) will appear for consideration. The Ballot typically contains voting selections as follows: "For" (in which a vote cast will support the measure), "Against" (in which a vote cast will oppose the measure), and "Abstain" (in which no vote is cast). The CEO or designee will complete the Ballot and submit it to the company or issuer electronically. Prior to logging out of the website, the CEO will print a PDF version of the screen showing the measures voted upon and the votes recorded. Next, the CEO or designee will email the PDF attachment to the CCO who, in turn, will update the "Proxy Voting Log" (or "Log") with the requisite information on a periodic basis as part of the Brokerage Committee's retrospective review duties.

Disclosure/Client Requests for Information. TCM will provide conspicuously displayed information in its Disclosure Document and website (i.e., for the adviser) summarizing this proxy voting policy and procedures, including a statement that clients may request information regarding how TCM voted a client's proxies, and that clients may request a copy of these policies and procedures. Upon receiving such requests, the CCO shall forward the most current version of the Proxy Voting Policy herein and Proxy Voting Log via email or regular mail to the requestor. The requestor shall receive the proxy voting information free of charge, which also should be disclosed on the website and disclosure documents.

Conflicts of Interest. TCM and, more specifically the CEO (in the capacity of a CIO/PM) will identify any conflicts that exist between the interests of the Adviser and the client by reviewing the relationship of TCM with the issuer of each security to determine if TCM or any of its Supervised Persons has any financial, business or personal relationship with the issuer. If a material conflict of interest exists, the CEO or designee will request that the CCO to advise whether it is appropriate to disclose the conflict to the affected clients, to give the clients an opportunity to vote the proxies themselves, or to address the voting issue through other objective means, such as, voting in a manner consistent with a predetermined voting guidelines (see above) or receiving an independent third party voting recommendation. TCM will maintain a record of the voting resolution of any conflict of interest in the aforementioned Proxy Voting Log.

Recordkeeping. TCM shall retain the following proxy voting records in a format and retention period as set forth in the Recordkeeping guidelines set forth in this Manual:

- These policies and procedures and any amendments thereto;
- Each proxy statement (which shall be maintained on the Adviser's website or alternatively the Adviser's website shall include instructions for investors to obtain the proxy voting records)
- Proxy Analysis Report, if applicable;
- Record of each vote cast or abstention (or "Ballot") in a manner prescribed by the Proxy Voting Form (see below). The CEO will direct the vote of proxies (including corporate actions and class action lawsuits) for which TCM is the primary investment adviser. In such instances, the CEO or designee shall enter the information required to complete the Proxy Voting Form which, too, will be used to memorialize proxy voting records in accordance with the Advisers Act;
- Documentation, if any, created that was material to making a decision how to vote proxies, or that memorializes that decision including periodic reports to the CCO, if applicable.
- Clerical or administrative records generated on behalf of the Adviser by the Proxy Support Vendor.
- Form N-PX (if not maintained by the Trust/Trust CCO)

Responsibility
CEO
